# Conditions of Sale

## Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

## Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 11.30am.

## DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

## Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

## Conditions of Sale

The sale will be conducted by Rural Livestock Limited with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements (no later than 24hrs prior to sale) are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

FOVERAN DEER PARK

# Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

## **TB Status**

Our herd status continues to be a C10 classification.

## **Guarantee**

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

## **Disclaimer**

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

# Foreword

## Dear Clients and Friends,

Welcome to our 35th Annual Elite Sire Stag sale.

This year we have something special on offer. After using McCaw and Alexander extensively in our breeding programme, we have decided to offer them for sale. We expect that McCaw will probably surpass 700 IOA and the 24kg+ antler of Alexander looks to be just as heavy this year. Both sires have left us some exceptional progeny and this sale offering is no exception. In addition we will have Cane (son of McCaw) on display at the start of the sale, and also a couple of exceptionally heavy spiker sons of Alexander as well.

In addition we are also offering Bledisloe and 3097 which is a stag that some of you may remember escaped out through a man door onto the road at a stag sale a couple of years ago. He returned in the winter and has been residing with our sire stags ever since. Fully recovered from his ordeal, he will join a small line of 4 & 5 year olds that we have on offer as well.

As always we have a few photos included in the catalogue of some of the stags on offer. Please remember that these were taken late November to be included in our catalogue and we expect the heads will be fully developed by sale day.

Please remember too that we expect these stags to shift extremely well. At the time of writing we are close to irrigation restrictions and things are hot and dry. This is an environment in which getting the best out of our deer is challenging and so we expect them to do well on your property.

Viewing is by appointment prior to the sale and from 11.30am on sale day. We invite you to join us for lunch prior to the sale and for drinks and a snack afterwards. We look forward to catching up with you then.

Kind regards,

Barry Gard & Staff at Foveran Deer Park.

FOVERAN DEER PARK

# Mission Statement

## **Our motto    Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

*By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.*

**DBVs**    Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

**Velvet**    By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

**Trophy**    The fastest growing component of our deer industry at present. Foveran's commitment is to not only supply high end trophies for ourselves, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long-tined, heavy, wide, "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

**Temperament**    We continually manage and evaluate the herd for this important trait.

# Schedule of Master Sires

# McCaw

## 7yr Son of Odysseus

P 9

McCaw

**2ND 3YR HA COMP  
& PEOPLE'S CHOICE  
2013 RISING STARS,  
IOA 568 @ 3YRS**

McCaw

**Odysseus**

**Dam 344**

**Woburn 80**

**Dam 62**

Age	Live weight	Antler / IOA
3	240kg	HA 12.05kg stripped IOA 568
4		HA 14.08kg 512 IOA 56pts
5	285kg	HA 16.57kg 570 IOA, 54pts
6		17.02kg 60pts 601 IOA
7	300+kg	20.37kg 692 IOA

**COMMENT:** McCaw has a solid reputation now for producing some excellent sons as we have seen offered in our past sales. He is also the sire of our new sire Cane (504 IOA at just 2yrs) who we expect to feature heavily in future breeding programmes. We expect McCaw to be well over 700 IOA this year which puts him amongst some of the top sires in the industry.

# Gregor

## 7yr Son of Scipio

Gregor

5	253kg	HA 20.05kg	605 IOA 53pts
6		Damaged	
7			684 IOA

**COMMENT:** Gregor grew his best head to date this year and he was taken as a trophy at 684 IOA. Consequently we only have his 5yr old head to display as his 6yr antler was damaged. He was the sire of Lot 15 sold at last years stag sale for \$45,000 and went on to be placed 3rd in the National 2yr HA competition. A very heritable sire who has left a huge legacy in our herd.

# Fitzroy

Age	Antler	IOA
3	HA 13.35kg 36pts	461
4	HA 51pts	552
5	HA 21.93kg	664 5/8

**COMMENT:** Bred here at the stud, his sire Henry VIII has a sound reputation for leaving heavy beamed sons. Fitzroy's dam 9119 is a full sister to Prince Philip who was the SCI World Record sire for 2012. Her dam sire Lewis is also the sire of former SCI World Record sire Charlie Mac and Legend. Fitzroy is improving his IOA score by approx. 100 inches per year and so we are expecting impressive scores from him at maturity.

3	HA 16.9kg	
4	HA 19.36kg	535
5	HA 22.84kg	632
6	HA 24.68kg	

**COMMENT:** Alexander was identified in a large group of stags being run on another property. He impressed us with his extremely heavy beamed antler structure and this has continued. Now at 24.68kg of antler, he is one of our heaviest antlered sires. We have used his genetics to put heavy beams on our trophy stags for the European trophy hunting fraternity.

**Houghton**

3	13.05kg 16 x 16 pts	447 5/8 <sup>ths</sup>
4	HA 12.72kg 42pts	485
5		496

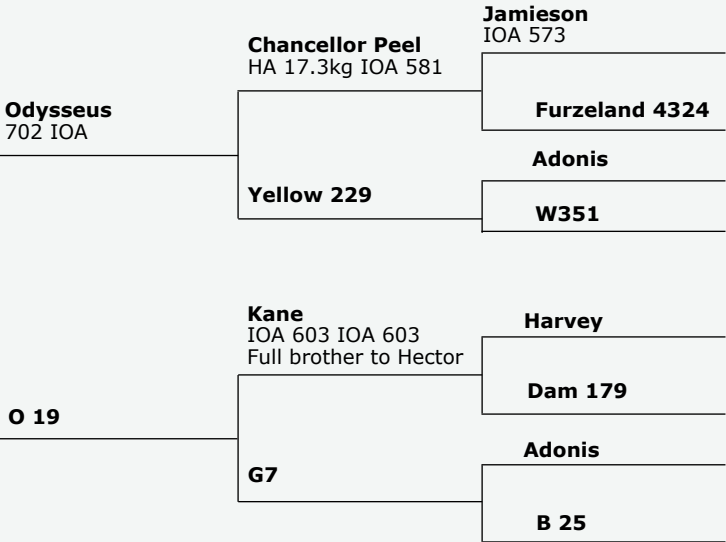

**COMMENT:** Purchased from Malcolm Cane for \$43,000. He was one of an impressive line up of Odysseus sons on offer. He has a heavy clean beam with big tops and an impressive spread. We have used Houghton in our ET programmes and also in our stud breeding programme. Houghton continues to leave us impressive progeny as can be seen with his sons in this sale.

Stapleford  
5yr Son of Odysseus

Stapleford

Stapleford

Age	Antler	IOA
3	HA 12.2kg 29pts	
4	HA 11.87kg 36pts	488
5		523

**COMMENT:** Stapleford was purchased from Malcolm Cane. He was one of an impressive line of Odysseus sons and shares his sire with McCaw and Houghton. Note that McCaw is Odysseus over a full sister to Kane and so we know this mix works well. Stapleford has strong front tynes and tops. His antler structure as a 5 year old improved markedly and he was looking to be as impressive as McCaw. Unfortunately he met with an accident and so we will never know for sure!

Lorde  
4 Year son of Metallica

Age	Antler
2	HA 8.72 kg 32pts
3	HA 13.2kg 469 IOA
4	HA 13.5kg 475 IOA

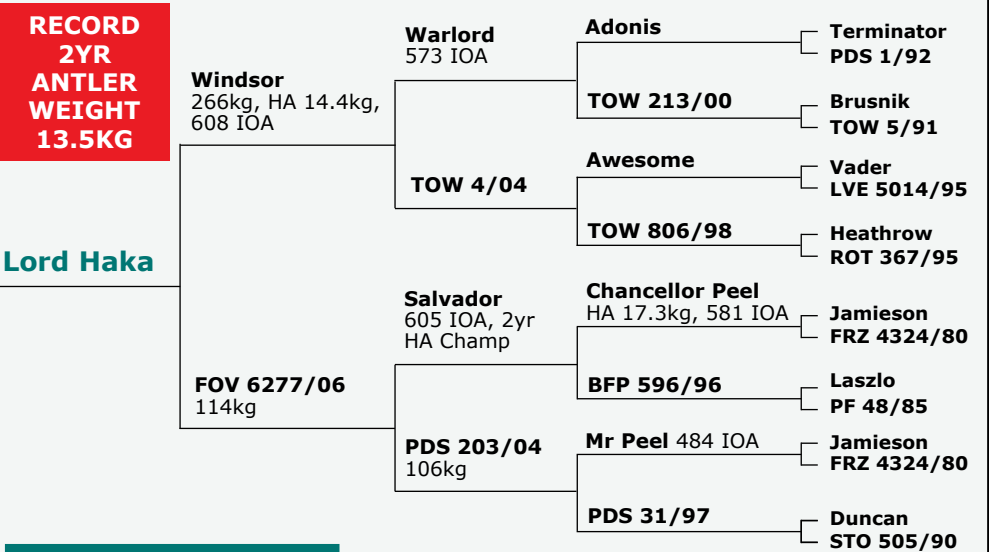

**COMMENT:** Lorde was on display at our January sire stag sale this year. He has a heavy beamed antler with a very wide spread in the typical style of his sire Metallica (679 IOA). Note too that his grandsires on both sides – Adonis and Tamar have both been SCI World Record trophy sires.

# Lord Haka

Record Breaking 5yr Sire (owned by Mt Cecil Trophy Deer Stud)

Lord Haka

Age	Live weight	Antler	IOA
2	201kg	13.5kg HA	502
3			552
4			689
5			721

**COMMENT:** Lord Haka’s early maturing genetics are valued in our breeding programme. At 201kg and 502 IOA he is impressive and one of the few sires to attain a 500+ IOA score at just 2yrs. Also of note is that his 13.5kg antler is a new industry record. Now owned by the Fraser family of Mt Cecil.

McCaw  
CAN 9016/09

**CAN 142/01**

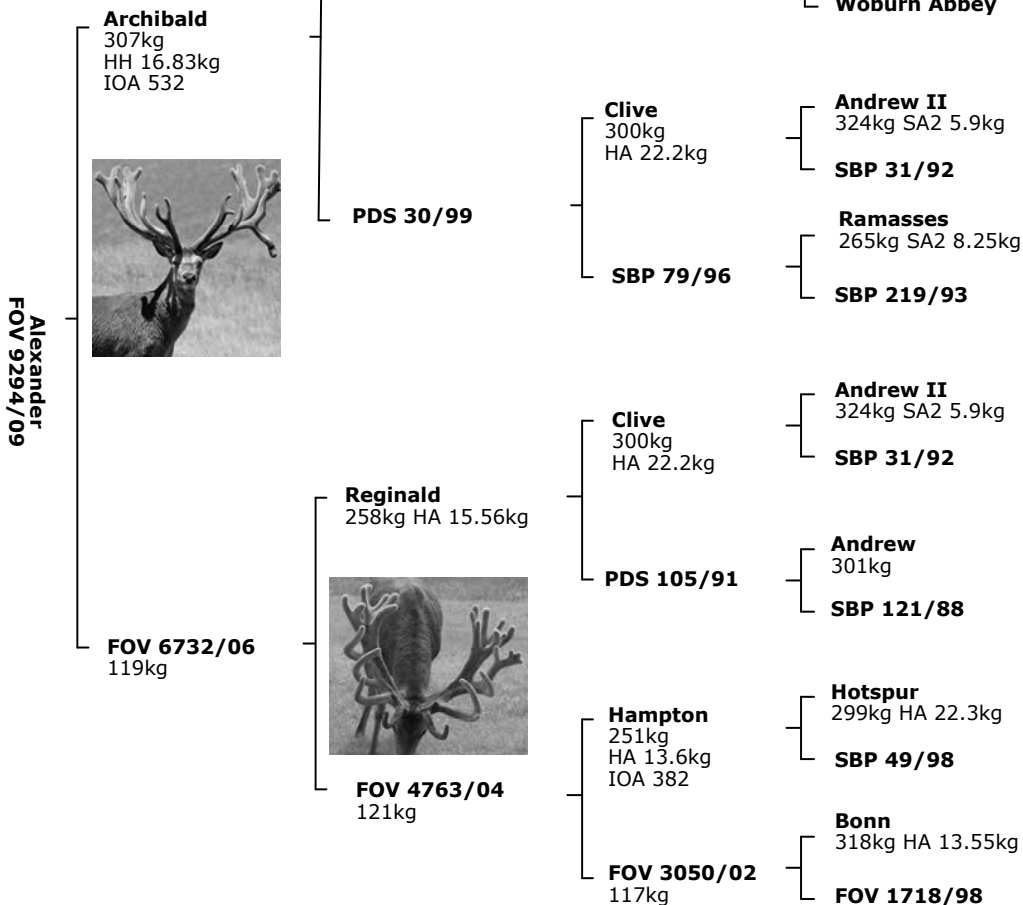

**Comment:** McCaw has been a fantastic sire for us. He is the sire of our new master sire Cane (placed 4th in the rising stars 2yr HA Competition). He has also sired many top sons that we have offered in this and previous sales. Scored independently last year at 692 IOA. Also if you add his burrs and spread to the score he received recently at the SCNO antler competition, they would have scored him at 715 IOA! Offered today as a sire or as a trophy with no restrictions on breeding.

**Weaning weight:**  
20/02/2010 50kg

**Recent weight:**

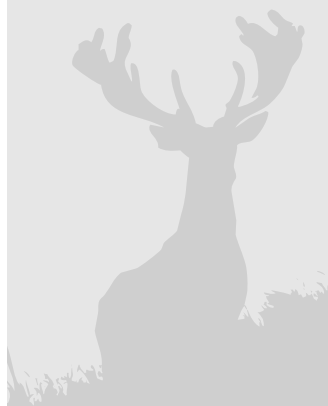

**SALE DAY WT:**

Price: \_\_\_\_\_  
Purchaser: \_\_\_\_\_

**Comment:** Alexander produced over 24kg of hard antler last year. Almost all of his stag progeny have heavy beamed antlers. Alexander originally was discovered in our velveting herd farmed under commercial conditions on another property. We were so impressed with him we have used him extensively as a sire. This year he has his multi-pointed front tynes back and looks to score well. He too is offered for his sire potential but would also suit the European hunter with his heavy beam. Again no restrictions on breeding.

**Comment:** Gregor is the sire of our impressive spiker placed 2nd in the National 1yr HA Competition in 2016. He was also the sire of Lot 15 sold to Malcolm Cane in our 2015 stag sale and was placed 3rd in the National 2yr HA competition 2016. Last year we sold a 40 point 2yr old son as Lot 3 also to Malcolm. Dam sire Henry VIII is the sire of Fitzroy (552 IOA @ 4yrs 51pts). A proven pedigree behind this young sire. Estimated at 25 points with very strong fronts and a heavy beam.

**Comment:** McCaw is an impressive sire. He was placed 2nd behind Leon in the Rising Stars National 3yr HA Competition and also voted peoples choice that year. He has sired many top stags offered in our sales. He is also the sire of Cane, placed 4th in the National 2yr Ha competition last year at 504 5/8 IOA. Dam sire Foveran Mega produced 8kg as a 33 point spiker. His pedigree is impressive with Huneric, Brusnik, Morpheus and Scipio all proven and very heritable sires. At time of writing this stag is just past velvetting. Estimate 12 x 12 points.

**Comment:** Lorde has a heavy beamed antler with a very wide spread in the typical style of his sire Metallica. He made for an impressive trophy sire. Dam sire 9265 was sold to Malcolm Cane with a hugely impressive 3yr antler in the classic style of his breeding (Charlie Mac/ Motdonis). This young sire is estimated at 10 x 11 points with an antler style you would expect from this pedigree.

**PFE 557/99**

**Comment:** It is worth noting that this stag is similarly bred to Cane who is also a McCaw over Huneric. Both of these sires are high achievers in National HA Competitions. And there are impressive sires throughout the pedigree also. A proven pedigree throughout which should auger well for the progeny of this young sire. We estimate at least 20 points.

**Comment:** Sire Fitzroy is developing into an impressive sire. He has improved his IOA score by approximately 100 inches per year so far and at time of writing is developing another hugely multi pointed head again this year. His dam is a full sister to Prince Philip. Foveran Mega's 33 point spiker antler weighing 8kg hangs in our trophy room. As you would expect this young sire has a heavy beam with big tops coming.

**Comment:** Alexander's 24.86kg of hard antler is impressive and looks to be at least as heavy again this year. He has a reputation for producing heavy antlered stag progeny which makes him a great match for Henry VIII. Henry VIII is the sire of Fitzroy (664 5/8 IOA @ 5yrs). Odysseus is the sire of Mentor, Houghton and McCaw and can only enhance this mix.

**Comment:** Huntsbury II combines two very well respected industry sires in this pedigree. Chancellor Peel and Amadeus make for a powerful combination and contributed to his 480 IOA at 3yrs which was impressive at the time. Dam sire Henry VIII is the sire of Fitzroy (664 IOA @ 5yrs). Fitzroy looks set to break records at maturity with his hugely multi-pointed antler. This young sire is estimated at around 24 pts. His multi-pointed antler is typical for his breeding.

**Comment:** Sire Gregor has an impressive track record. His spiker son was placed 2nd in the National 1yr HA competition in 2016. His 2yr son was placed 3rd in the National 2yr HA competition in the same year and last year his 40 point 2yr son was sold as Lot 3 to Malcolm Cane. Dam sire McCaw needs no introduction. He is the sire of Cane (504 5/8 @ 2yrs placed 4th National 2yr HA Competition). A proven pedigree at every turn.

**Comment:** Huntsbury II combines two very well respected industry sires in this pedigree. Chancellor Peel and Amadeus make for a powerful combination and their heritability is being passed on to the Huntsbury II son on offer in this sale. Dam sire Prince Philip was a former SCI World Record trophy sire. He was also the sire of Lots 1 and 2 at our 2014 stag sale. It is too early to estimate points at time of writing.

**Comment:** It is no coincidence that this is the second Lorde 9265 combination to be offered at this sale. Lorde with his wide multi pointed antler in the typical Metallica style is well matched to that of 9265. Both Charlie Mac and Motdonis contributing to the weight and style of his antler. This young sire has an exceptional trophy pedigree.

**Comment:** Sire Faulty Towers has produced us some impressive stags offered at previous sales. His sire Pegasus used at Tower as a 2yr old before we purchased him at 3 years. Dam sire Amadeus was an impressive all round sire for both bodyweight and antler. He was also the sire of Sebastian. His big wide antler structure is highly heritable. Some big names throughout this pedigree.

**Comment:** Sire Stapleford looked to be developing into a sire equal to McCaw when he met with an accident and so now we will never know. He impressed us with his development and settled in extremely well here at Foveran. Dam sire Adonis was a former SCI World Record and the sire of Metallica and Spartacus. He also appears in the pedigrees of many other top industry sires. Lewis on the bottom line is the sire of Legend and Charlie Mac and the dam sire of Prince Philip. This stag is 17 x 12 points with a long beam and an outrigger.

**Comment:** Gregor has an impressive track record. His impressive spiker son was placed 2nd in the National 1yr HA Competition in 2016. His 2yr son was placed 3rd in the 2yr HA Competition the same year. An extremely heritable sire and a proven performer. Dam sire Lancaster with his huge long and wide antler structure must surely enhance the mix.

**Comment:** This stag was to be offered as Lot 5 in our 2016 stag sale, however he was one of two stags that escaped onto the road! He returned in the winter of his own accord and has been residing with our sire stags ever since. At 4yrs he has developed into an impressive sire with a large proportional antler typical of his breeding. An exciting opportunity to secure a stag capable of mating a large group of hinds, and he will have a high residual value as a trophy at maturity.
