Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 10.30am.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

FOVERAN DEER PARK

Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

TB Status

Our herd status continues to be a C10 classification.

Johnes tested

All 2 year old sale stags have been Johnes tested clear. Older stags have been tested as two year olds.

Guarantee

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

Disclaimer

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

Foreword

Dear Clients and Friends,

Welcome to our 31st Annual Elite Sire Stag.

Our breeding programme continues to include a large embryo transplanting programme and many of the stags on offer in our Elite Sire Stag Sale are the result of that programme. We continue to look for new genetics in the industry – both hinds and stags – to include in this programme to ensure our selection includes the very best genetics the industry has to offer as we strive to breed the ultimate all round stag.

Our first sale includes two, three and four year old stags and yearling hinds which is an impressive line up of our elite genetics largely produced as a result of our ET programmes. We expect that you will find genetic combinations unavailable elsewhere in the market place.

Our Commercial and Trophy Sale includes a selection of two, three and four year old stags which include the genetics we built our herd on. These stags have been selected on their own merit and they have had to pass the same stringent selection process that we have for our Elite Sale. As such, we know that you will be impressed with this selection. Remember too that this sale will include a small selection of trophy stags which are mainly 5 year olds and so they have the potential to further improve as they mature or are ready for hunting now.

We are again offering helicopter transport to and from the sale this year. We will have the same collection points as last year but please remember to contact us if you require a booking as we will only be providing enough seats for those that have booked. To book a seat, please phone Barry on (03) 436 0680 or (021) 222 8964.

We will be offering a meal and drinks between the two sales and so we encourage you to make a day of it. We hope that you can join us and we look forward to catching up at the sale.

We wish you all the best with your purchases and look forward to hearing back from you regarding their progress.

Kind regards,

Bob Robertson

FOVERAN DEER PARK

Mission Statement

Our motto Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tined heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

COMMENT: Amadeus, truly the most amazing 2 year stag ever produced. His record breaking huge wide expansive, heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3 years is unbelievable. His exceptional 7 year antler takes pride of place in our trophy room. At 634 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Proven genetics!! Tragically Amadeus died this year, but with good semen stocks he will continue to be part of our breeding programme.

COMMENT: Unfortunately we lost Image during the rut last year. He has left a huge legacy with his progeny in our herd. His very wide and thick heavy antler style will continue to be highly sought after by the hunting fraternity. Also an excellent sire to promote velvet weight in your herd. We will continue to use Image in our breeding programme using AI and so we will continue to have his progeny to offer in future sales.

COMMENT: Sired by Amadeus and following closely in his footsteps with his antler style and frame size. Sebastian was 209kg as a 2 yr old with an impressive looking antler structure. Unfortunately at 3 yrs, he got tangled in wire just as his royals were developing and despite removing the wire, the antlers were affected and eventually had to be removed as they had stopped growing. It has taken him two seasons to recover from that accident which also affected his bodyweight. This year though he has put up an impressive head and he will be on display at the sale. A point worth noting is that his progeny are ranking highly for DBVs in our herd.

COMMENT:

Top credentials at 16.75kg supreme velvet at 8 years. Again the thickness of beam will promote thick heavy antler which is highly sought after by European hunters.

We grew his head out last year and he scored a massive 563 5/8 IOA. His antlers remained on his head until July before cutting 13.2kg HA. This weight is considerably less than what they would have been if cut pre rut as with our other sires.

COMMENT: This guy has to be the epitome of the perfect stag with all three traits i.e. heaviest Pure German 2 year old ever produced at a massive 243kg, a 7.8kg HA head of 34 points with a 350 SCI score (3rd in National HA 2 year competition) and most importantly excellent temperament. At 3 years his liveweight at 303kg is massive and ranks him right up there in the top of any Red deer produced in NZ with 40 points and 407 SCI. Currently one of our heaviest German master sires at 338kg with 15.52kg HA. Plus red hot potency!

COMMENT: Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. He was the most impressive 3 year old sire offered the year we purchased him. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great.

COMMENT: Purchased from Stanfield Park for \$95,000. Sadly we lost Mountbatten during the rut two years ago. By a stroke of luck he served his donor hinds and so his legacy will continue in our herd for some time yet. He was a magnificent sire in his own right and one of the most heritable to date.

His heritable antler factor is second to none with many huge spiker and 2 year heads in our herd. Another 2 year son has an incredible antler weight of 11.86kg with 371 IOA score. A new record for antler weight for age, breaking the previous record by over 2.2kg. Also sire of our master sire Prince Philip.

COMMENT: Hector, a full brother of Kane (purchased for \$100,000 off Sarnia Park) has very good heritability anchored against very solid genetics in his background i.e. Harvey and the famous Woburn 80. His massive multi point head of 535 IOA at just 5 years was awesome. He is used extensively over our Germans to enhance trophy genetics within our herd. His 57 point head remains impressive. This year he has developed hugely strong outrigger tyne with the remainder of the antler structure intact and so we look forward with interest to see what happens next! An impressive Woburn sire.

COMMENT: Apollo has been strategically bred for big royals on a wide spread, with good body and temperament and we have got the lot! An exceptional trophy mix in his pedigree. Also interesting to note that grand dam 1003's brother 'Little Rock' had an IOA score slightly ahead of Salvador at 2 years. Great grand dam 3068 is the mega dam at Pelorus Deer stud for trophy genetics. 5th in the 2009 Rising Stars HA competition, and with 2 other full brothers in the Top 5, this confirms the heritability we can expect from this rising star. Apollo is impressive this year with his best head yet.

COMMENT: Archibald, purchased by Foveran from Dave and Mac Bryant, confirms our commitment to purchasing the very best English genetics available. This guy's antlers are enormous with a very thick beam and strong long heavy tines. This combination is heritable, cemented by 96079 (Bentley's dam) & will undoubtedly pass on with our specially selected females to enhance these already huge antler stats, to his progeny. Sire of lot 1 in 2010's stag sale with the new World Record HH weight of 12.53kg at just 2yrs (sold to John Hunter) confirming the heritability of his heavy beamed antler genetics. COMMENT: Impeccable breeding with Chancellor Peel as his sire. It is worth noting that Chancellor Peel is also the sire of Salvador (IOA 575 @ 5yrs) and Commander Peel (IOA 429 @ 3yrs) confirming the heritability of this line for high scoring long tynded antler highly sought after by the trophy industry. With a main beam of 40 & 42 inches and a span of 29 inches and 40 points, Odysseus is the ideal trophy sire. Sire of our new master sires McCaw and Donovan, he continues to play a large part in our breeding programme.

COMMENT: Broadband is a magnificent Pure Furzeland Chancellor Peel son. His span of 34" and spread of 62" are particularly wide for a Furzeland stag making him a great option if you want to increase width in your herd. His multi pointed open tops score very well, and he has a fantastic quiet temperament.

Comment: Sebastian was the sire of lot 1 at last year's stag sale, a 2yr old at 194kg with a 21 point antler sold to Ruanui station. Commander Peel was 2yr HA Champ and the sire of lot 2 at our 2012 stag sale, a 2yr old at 190kg cutting 10.72kg sold to Ian Scott. Awesome on the bottom line is the sire of Flash, Moconna and Awesome Too. This stag has strong front tynes and good multi tops we estimate to be 10 x 9.

Comment: Prince Philip was the SCI World Record trophy for 2012 at 669 SCI. Dam 6285 was the dam of lot 11 at our 2011 stag sale, a 2yr old at 218kg with a 32 point antler sold to Dingleburn Safaris for \$13,000. It is also interesting to note that her dam BFP 91/03 was the dam of lot 2 at 203kg with a 38 point antler sold to Eric Thomson for \$12,000! A proven dam line. This stag has strong front tynes and tops estimated to be 8 x 8 points.

Comment: Austin has won the National Velvet Competition a number of times. His hugely heavy velvet head must be close to or the industry record for weight. Dam sire Mountbatten is the sire of Prince Philip, the SCI World Record trophy for 2012. Grand dam 7/03 was the dam of lot 23 at our 2010 stag sale sold to Don Hudson for \$51,000, with 32 points of antler. This stag has a nice even symmetrical head with good tops.

Comment: Prince Philip was the SCI World Record Trophy for 2012 at 669 SCI. He is also a full brother to Alan Stewart's Foveaux who also scored well over 600 IOA. Apollo was the sire of lot 1 at our 2012 stag sale, a 2yr old at 201kg with a strong 20 point antler sold to L McDonald for \$13,000. Warlord on the bottom line is the sire of Fov Windsor and grandsire of Lord Haka. This stag was one of our Top 10 spikers last year and used in our breeding programme as a sire. This stag has a nice even head with good tops. We estimate 10 x 8 points.

Comment: Amadeus is a top all round sire for both bodyweight and antler style. He is the sire of our master sire Sebastian and well respected in the industry as a master sire. Dam sire Salvador is also the dam sire of Lord Haka. His high scoring and stylish antler well suited to that of Amadeus. This stag has a nice even tidy head with good tops we estimate to be 8 x 8 points.

Comment: Metallica at 679 IOA over Zidarn at 653 IOA is all about trophy antler potential. Zidarn was the National HA Champ and both sires could have easily claimed world record status had they been taken as trophies in their prime. There is a strong heritability factor here too worth mentioning with Adonis also the sire of Spartacus and Warlord. Also Brusnik is the sire of Huneric (sire of Fov Mega).

Comment: Pegasus is the sire of Faulty Towers (558 IOA at just 4 years) his sire Awesome is also the sire of Flash, Moconna and Awesome Too. Hotspur was the unofficial CIC champ at the time he was hunted with his huge 22.3kg HA. Note also heavy beamed National Velvet Champ Sherwood on the bottom line. This stag has good brow bey and trey tynes. Too early at time of writing to estimate points.

Comment: Woody was the sire of an impressive line up of 2yr olds at last year's stag sale, most notably lot 4, a 2yr old at 204kg cutting 9.56kg antler sold to R Ponsonby for \$17,000. He has since been taken as a SCI World Record trophy at 715 SCI. Dam sire Jamieson is the sire of the very heritable Chancellor Peel (sire of Odysseus, Salvador, Broadband and many others) and also the sire of Scipio! Mountbatten on the bottom line is the sire of Prince Philip. A very heritable record. This stag has strong front tynes and tops. Expect 25 points.

Comment: This is some of our first Legend progeny. At 655 IOA at just 6 years he is impressive. His sire Lewis is the sire of former SCI World Record, Charlie Mac (HA 20.6kg). Woody impressed us with his 2 year sons at last year's stag sale including lot 4 at 204kg cutting 9.56kg antler, sold to R Ponsonby for \$17,000. Note also 2yr HA Champ Hannibal on the bottom line. Also Salvador, dam sire of Lord Haka. An impressive pedigree.

Commercial Sire & Trophy Sale

Monday 6 January 2014, 5pm

**We expect this sale to start at 5pm, after a break
for a meal and refreshments from the first sale.**

Lot numbers start at 79 to avoid
confusion at the time of delivery.

These stags have been selected on their own merit
for both antler and bodyweight, and not necessarily
for their pedigrees. They have the same genetic base
as the remainder of our herd and so we know they
will breed on well and introduce top bodyweight
and antler genetics into your herd.

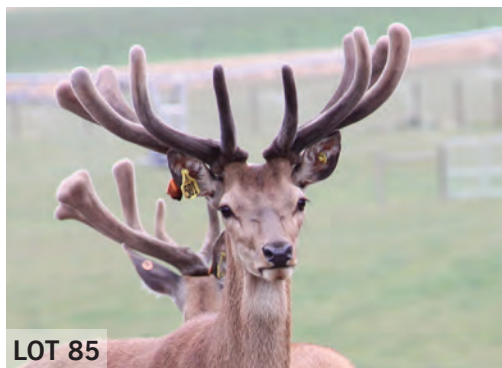

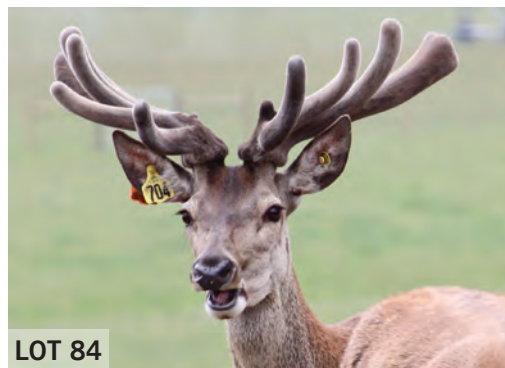

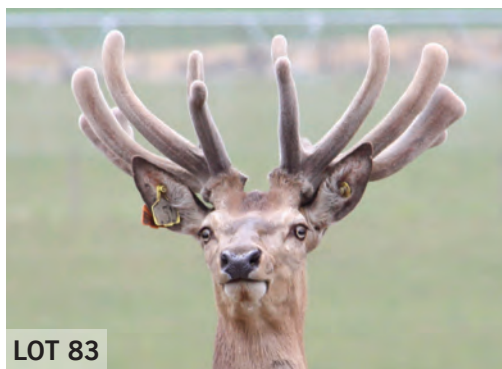

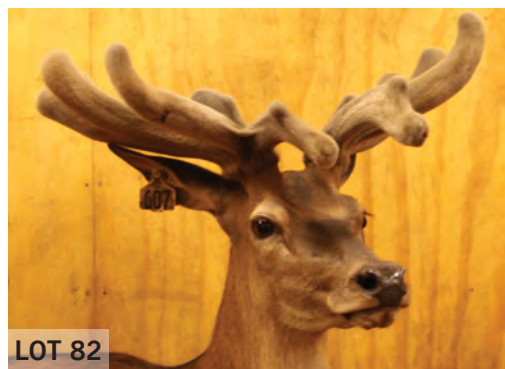

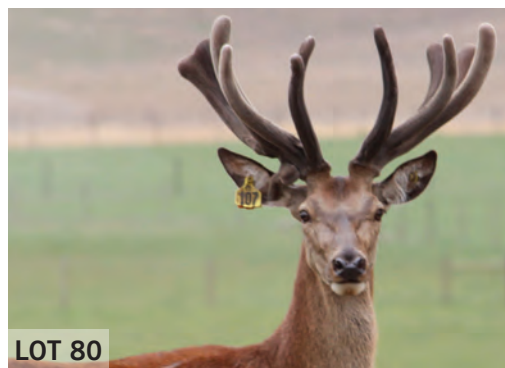

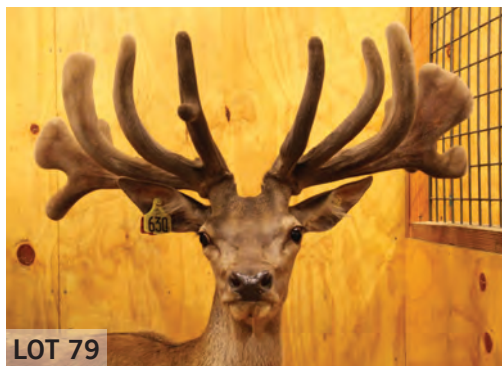

Please also remember they are mostly older than
2 year stags and so they CAN MATE LARGE
NUMBERS OF HINDS.

Many of these stags have excellent antler and could
also be considered for their trophy hunting value.

Good luck with your bidding and purchases!

Comment: This pedigree is ideal for promoting heavy beamed antler. Foveran Mac has a heavy beamed antler, a product of Charlie Mac (20.6kg HA) over the heavy beamed antler style of Henry VIII, inherited from his sire Henry James who held the record for 2yr antler weight until it was beaten by one of his sons. This stag had 24 points last year and at time of writing it's too early to tell but this year's head has a thick heavy beam.

Comment: Prince Philip was the SCI World Record trophy stag for 2012 at 669 SCI. He was also the sire of lot 40 at last year's sale, an impressive 34 point spiker sold to G Brady for \$13,000. Commander Peel was the National 2yr HA Champ and the sire of an impressive line of 2yr old sons in 2012 - including lot 2 at 190kg cutting 10.72kg antler and lot 5 at 188kg cutting 9.29kg antler. A highly recommended pedigree. This stag has a tidy multi point head with bifurcated treys.

Comment: Henry VIII was the sire of lot 9 in our December stag sale. Scored at 396 at 3yrs and now with 42 points as a 4 year old, he will surely be a future industry great. His sire Henry James held the record for 2yr antler until it was beaten by one of his sons and this reputation for heavy beamed antler has passed to Henry VIII. Dam sire Amadeus is a top all round sire and sire of Sebastian. Note also Jamieson on the bottom line is the sire of Chancellor Peel and Scipio. This stag has multi tops. Expect 20 points.
