Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 12pm.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding). All stock sold are DNA guaranteed.

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Vetted In-Calf Hinds

All adult hinds have been ultrasound pregnancy tested using a real time ultrasound scanner. Only confirmed pregnant hinds have been included in the sale. All testing was carried out by Dr Noel Beatson from Rural Vet Services, Timaru.

TB Status

Our herd status continues to be a C10 classification.

Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Conditions of Sale cont./ Guarantee

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

The sale is conducted exclusive of GST.

A buyers commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of the respective stud.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

Catalogue Deer Numbers

This is a very large sale, due to timings and other farming criteria some stock may be removed from the sale prior to auction.

Foreword

Dear Clients and Friends,

Welcome to our additional Elite Hind and Weaner sale.

We have decided to bring our stags home that we have out on grazing to grow their velvet out here at Foveran this year, and as a result we need to make space for them. Consequently we are offering this selection of capital stock which includes some genetics that proved popular at our June sale and also some hind genetics that include matings to some of our new master sires. This offering will include their first progeny and so provides a good opportunity to be in at the ground floor with these future industry greats.

You will have heard other stud breeders promoting the idea of purchasing a few good hinds to mate to your top stags to produce replacement capital stock. This is something that we also agree with. Buying a good stag is only half the equation as much faster genetic gain can be made if you also have good hinds to mate that stag to.

This sale provides you with an opportunity to do that and with the advantage of purchasing hinds that you will get top progeny from without the costs of wintering her in her first breeding season with you. These hinds have been mated to our top sire stags and so we know their progeny will be a valuable asset for you for either replacement stock or top velvetting/ breeding stags in the future with trophy potential at maturity.

It is our pleasure to share these new genetics with you and we wish you well with your purchases. Please continue to give us feedback regarding their performance.

Kind regards,

Bob Robertson

FOVERAN DEER PARK

Mission Statement

Our motto Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long timed heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

COMMENT: Amadeus, truly the most amazing 2 year stag ever produced. His record breaking huge wide expansive, heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3 years is unbelievable. His exceptional 7 year antler takes pride of place in our trophy room. At 634 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Proven genetics!! Tragically Amadeus died this year, but with good semen stocks he will continue to be part of our breeding programme.

COMMENT: Unfortunately we lost Image during the rut last year. He has left a huge legacy with his progeny in our herd. His very wide and thick heavy antler style will continue to be highly sought after by the hunting fraternity. Also an excellent sire to promote velvet weight in your herd. We will continue to use Image in our breeding programme using AI and so we will continue to have his progeny to offer in future sales.

COMMENT: Sired by Amadeus and following closely in his footsteps with his antler style and frame size. Sebastian was 209kg as a 2 yr old with an impressive looking antler structure. Unfortunately at 3 yrs, he got tangled in wire just as his royals were developing and despite removing the wire, the antlers were affected and eventually had to be removed as they had stopped growing. It has taken him two seasons to recover from that accident which also affected his bodyweight. This year he has put up an impressive 32 point antler. A point worth noting is that his progeny are ranking highly for DBVs in our herd.

COMMENT: Vicktor was chosen as a replacement Pure Schulte Wrede German sire as he impressed us with his three year old stats. His pedigree is well respected at the stud also with Sebastian as his sire. Sebastian was the sire of Lot 1 at this year's stag sale, an impressive 2yr old sold to Ruanui at 194kg with a very strong 21 point antler. His grand sire, the great Amadeus, was a top all round sire for both bodyweight and antler structure. His grand dam 6666 is a top performing dam and has produced some exceptional 2 year old sires – most recently lot 28 at this year's stag sale – a 2yr old at 205kg with a 22 point antler also sold to Ruanui.

COMMENT: Purchased last year from Malcolm Cane for the top price of \$62,000, McCaw is an outstanding addition to our master sire line up. Placed 2nd in the Rising Stars 3yr HA Competition and also voted People's Choice in that competition. Malcolm considered retaining him for a sire. He is a great all round stag with superb temperament, great body confirmation and incredible antlers! Bifurcating brow, beys and treys with super heavy tops. His dam is a full sister to Kane. We consider these genetics to be very high in the ranking with the best head we have ever seen for a 3yr old. Odysseus has shown his genetic consistency with a large number of great 3yr olds produced this year.

COMMENT: Gregor has an impressive antler that will be on display in our trophy room. He has big strong tops and good front tynes. This really impressed us, as does his pedigree which gained him entry into our master sire line up. He shares his sire Scipio with Morpheus (World record 4 & 5yr head) and his dam sire Commander Peel has produced top 2yr sale stags: most notably lots 2 and 5 in our 2012 stag sale - both 2yr olds at 190kg & 10.72kg antler and 188kg & 9.29kg antler respectively.

COMMENT: Alexander was identified in a large group of stags that were out grazing last year. He so impressed us with his extremely heavy beamed antler structure that we thought was enormous until we saw his 4yr old head this year. At 19.36kg Hard Antler we are confident he will be one of the heaviest antlered industry sires at maturity. Not surprising as his sire Archibald was the sire of Lot 1 at our 2009 stag sale – a 2yr old with 12.53kg HA which was the industry record at the time. An exceptional dual purpose sire for both velvet and trophy antler.

COMMENT: Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. He was the most impressive 3 year old sire offered the year we purchased him. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great.

COMMENT: Apollo has been strategically bred for big royals on a wide spread, with good body and temperament and we have got the lot! An exceptional trophy mix in his pedigree. Also interesting to note that grand dam 1003's brother 'Little Rock' had an IOA score slightly ahead of Salvador at 2 years. Great grand dam 3068 is the mega dam at Pelorus Deer stud for trophy genetics. 5th in the 2009 Rising Stars HA competition, and with 2 other full brothers in the Top 5, this confirms the heritability we can expect from this rising star. Apollo is impressive this year with his best head yet.

COMMENT: Woody was placed 2nd in the 3yr HA Competition 2010 with a score just 4 6/8 behind record breaking Morpheus. Grandson of record breaking Herbrand and now the current SCI World Record, Woody's progeny are well worth securing. The line up of 2 year old sons in this year's stag sale inspired us with confidence to continue to use him again this year in our breeding programme.

COMMENT: Purchased by Peter Adlam from Tower Farms, he was the top priced stag at their sale that year. Sired by our master sire Pegasus, over Brusnik (sire of Huneric and Zidarn). Faulty Towers is maturing into a top master sire with an impressive trophy score of 558 IOA at just 4yrs old with extremely long front tynes and tops. We have included this impressive master sire in our breeding programme again this year.

Comment: McCaw was placed 2nd in the 3yr National HA Competition and also was voted People's Choice. His sire Odysseus is the sire of Mentor and Houghton and many other top sires in the industry. Dam sire Brusnik is the sire of Huneric and Zidarn. Grand dam 6285 was the dam of Lot 1 and 2 at this year's stag sale and also Lot 11 at our 2011 stag sale - a 2yr old at 218kg with a 32 point antler. Impressive heritability in this mix.

Comment: This pedigree has been designed for heavy beamed antler. Sire Henry VIII at 18.6kg and 619 IOA was impressive. His sire Henry James held the record for 2yr antler weight until it was beaten by one of his sons. Dam sire Charlie Mac was a previous SCI World Record trophy taken here at Foveran. A key ingredient in attracting the hunter who took him was his 20.61kg antler weight. Note too Motdonis at 22.6kg HA on the bottom line.

Metallica

Comment: Sire Metallica is also the sire of new master sire Lorde with his heavy wide antler style typical of Metallica. Metallica shares his sire Adonis with Spartacus and Warlord. Dam sire Commander Peel was National 2yr HA Champion and sired an impressive line of 2 year old stags at our 2012 stag sale including Lot 2 with 10.72kg antler and Lot 5 with 9.29kg antler. Dam 8440 was the dam of lot 3 at this year's stag sale with an impressive 28 point antler. Vetted in calf to McCaw who was placed 2nd in the National 3yr HA Competition and voted People's Choice, the progeny from this mix will surely impress.

Comment: Sire Amadeus with his huge bodyweight and very attractive high scoring antler style is a top all round sire stag. Dam sire Image with his heavy beamed high scoring antler is a great match and the resultant progeny including dam 2100 are packed with some of our best Schulte Wrede German genetics. Vetted in calf to Viktor who we offered as Lot 46 in this year's stag sale. He didn't meet our reserve and so we decided to retain him as a sire. This progeny pedigree contains a number of our top dams - 4021, 500, 6666, 120, 264, and 9833. Some of our best German genetics on offer here.

FOV 9265 / 09

Comment: An exciting mix which includes some fresh new genetics. Sire 9265 was sold as Lot 46 last year to Malcolm Cane for \$24,500 with a huge 3yr antler. One of the biggest we have produced. This dam is a result of us using him as a 2 year old as a sire. Heavyweights Charlie Mac (20.6kg HA) and Motdonis (22.4kg HA) will combine well with dam sire Pure Woburn, Russell. Vetted in calf to new sire Huntsbury II who caught a lot of attention at our stag sale as he was on display. We believe this young sire has a great future and will continue to be part of our breeding programme going forward.

Windsor

Comment: Sire Windsor is also the sire of Lord Haka. We are currently evaluating our rising 2yr stags and are impressed with his sons coming through. Dam sire Sovereign is the sire of Sovereign II (741 IOA, 21kg HA, 61 points!) Exceptional heritability for this young hind to pass on to her progeny. Vetted in calf to our impressive new young sire Huntsbury II, the progeny from this mix will impress.

Amadeus

Comment: Amadeus is a top all round sire for both bodyweight and antler. He is also the sire of Sebastian and many other top 2 year olds offered at our recent sales. Notably Lot 2 at last year's stag sale, a 2 year old @ 190kg cutting 10.8kg antler sold to Bill Russell for \$9,500. Dam sire Windsor is the sire of Lord Haka (689 IOA at 4 years). A massive, well proportioned head of antler! Vetted in calf to new sire Huntsbury II who impressed those that saw him on display at this year's stag sale.
