# Foreword

## Dear Clients and Friends,

At the time of writing this we have just completed our final selection of sale stags and can report that we have some impressive entries in this years sale. There are at least 2 full embryo brothers to Mordecai (Rigby x Davidson). Also a couple of full brothers to Robert Hay (Apex x Davidson). In addition there is a full brother to Titanic (Kallis x McCaw) and Phoenix (Rigby x McCaw) as well. Some of these stags we used as spikers to mate yearling hinds and so we are offering a yearling hind by those stags as well so that you can see their heritability.

The sale stags are at various stages of antler development that range from not yet at velveting stage to starting to show their royals and so we haven't been able to estimate the number of points on each. As a result the photos don't show much either but we know from their history that they will impress. We will send out later photos to those of you that we have on our email list, and also will post photos on our Facebook page so watch out for those.

As always our stags are guaranteed for temperament and performance and so you can buy with confidence knowing that we stand behind all of the stags on offer in this sale.

The sale stags can be viewed by appointment at anytime prior to the sale by arrangement or from 11.30am on sale day. Do join us for lunch prior to the sale and a drink afterwards if you wish.

We look forward to catching up on sale day.

Kind regards,

Barry Gard & Staff at Foveran Deer Park.

# Conditions of Sale

## Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

## Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 11.30am.

## DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

## Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

## Conditions of Sale

The sale will be conducted by Rural Livestock Limited with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 4% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements (no later than 24hrs prior to sale) are made with Rural Livestock Ltd.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

# Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

## **TB Status**

Our herd status continues to be a C10 classification.

## **Guarantee**

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

## **Disclaimer**

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

# Mission Statement

## **Our motto** **Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

*By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.*

**DBVs** Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

**Velvet** By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

**Trophy** The fastest growing component of our deer industry at present. Foveran's commitment is to not only supply high end trophies for ourselves, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long-tined, heavy, wide, "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

**Temperament** We continually manage and evaluate the herd for this important trait.

5		841 IOA

**COMMENT:** Cane has been bred here at Foveran. A son of the very heritable McCaw who has produced us so many top stags in previous sales. At 504 5/8 IOA, Cane was placed 4th in the National 2yr HA Competition. As a 3yr old he was placed 3rd in the 3yr section. As a 4 yr old he was placed 2nd in the 4yr section of the Rising Stars at 751 IOA. At 841 IOA at just 5yrs, Cane would have beaten the current SCI World Record. His mass of antler is impressive and he is growing another massive head this year.

**COMMENT:** Bred here at the stud, his sire Henry VIII has a sound reputation for leaving heavy beamed sons. Fitzroy's dam 9119 is a full sister to Prince Philip who was the SCI World Record sire for 2012. Her dam sire Lewis is also the sire of former SCI World Record sire Charlie Mac and Legend. Fitzroys antler growth was affected last year but we are pleased to report that it has returned to normal this year. A super long and wide head which he passes on to his progeny.

**COMMENT:** Sired by Fig Jam who has been scored at 826 IOA and with an antler structure typical of his breeding, Munro has an antler structure with the "wow" factor. His dam sire Discombe was a National 2yr HA Champ. He matured at 652 SCI with a 62 inch spread which looks to have been inherited by this young sire. Munro grew a stunning 705 IOA of antler this year and looked set to follow in the footsteps of his sire FigJam prior to his untimely death at the end of his breeding season this year.

**COMMENT:** Orlando has played a big part in our breeding program during his time here at the stud. At 668 IOA at 4yrs, he was bigger than his sire Nixon at the same age. At 5 years he went on to grow an impressive 712 6/8. He had a hugely heavy antler and impressive bodyweight which he passes on to his progeny.

**COMMENT:** Rigby was the highest priced stag sold at auction in 2016 at \$138,000. He is a son of Leon, the highest scoring stag in the industry by a country mile. Rigby has good length brow, bez and trez tynes and totals 57 points. Rigby is a National 3yr HA Champion. A very heritable sire of both Phoenix and Mordecai.

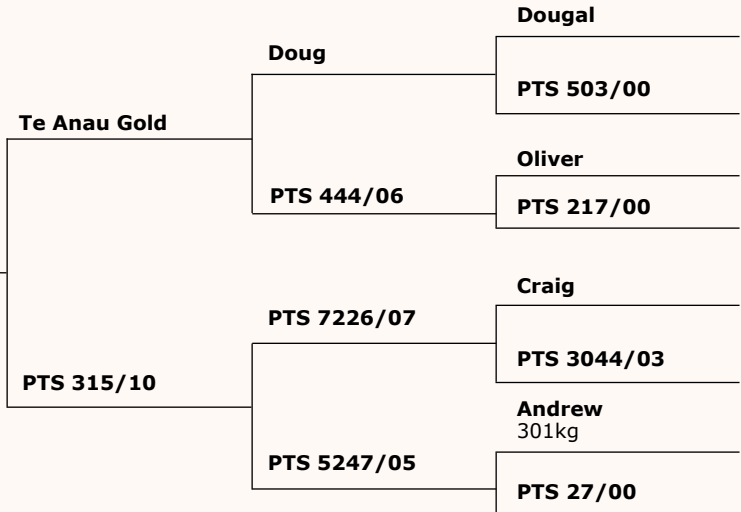

# Kallis

Kallis

Kallis

**COMMENT:** What caught our eye about Kallis was his progeny performance results. In 2015, 2016 and 2017, he has featured strongly in the sire of three categories at the Rising Stars competition. Kallis was also the sire of the winner of the 2015 National 2yr HA competition at the Rising Stars. It is due to this consistency that we decided to use him in our breeding program. Our new sire Titanic is by Kallis – further proof of his heritability.

**COMMENT:** Adidas was purchased in 2015 by Sam Cane for \$90,000 and was one of the most impressive stags offered at Cane’s sale. Adidas won the National 3yr HA competition at the Rising Stars and was also awarded the Supreme Trophy award. Unfortunately, his 4yr old antler was damaged. Malcolm advises it looked bigger than his 3yr old antler but was not able to be scored. Now at 5 years at 640 IOA, Adidas has recovered well.

**Comment:** 7158 was used as a spiker over yearling hinds. He is a full brother to our sire Robert Hay and every bit as good! As a result we have yearling progeny on the ground and are offering a daughter of this stag as the next lot. A proven stag for mating and a well respected pedigree with sire Apex over Davidson. 7158 has clean heavy front tynes, big strong tops and a long wide antler structure. 41 points at 2yrs so expect a big multi point antler. If you are looking for a stand out sire this guy is well worth considering.

**Comment:** Sire Rigby is himself, a high scoring possibly record breaking sire. His sire Leon was the highest scoring industry sire by a country mile. He has a reputation in our herd (and others) for leaving hugely multi pointed sons and 7356 is no exception. 7356 had 45 points as a 2 year old and so we are expecting lots of tops in this antler. He has big strong front tynes and split treys. A very quiet stag.

Dam sire Adonis was a former SCI World Record and appears in the pedigree of many many industry greats. Brusnik on the bottom is also a prolific producer of industry sires such as Brusnis, Huneric, Nixon and Zidarn. 7295 has big front tynes, T4's off the treys with a solid beam. He is just at velvetting stage at selection but looks to be a wide head.

**Comment:** Fitzroy has left an impressive legacy here at the stud. His very long and wide antler structure will be highly sought after by the hunting fraternity. His heavy beam inherited from the two Henry's. Dam sire Houghton shares his sire with McCaw, Mentor and many other top industry sires. Grand dam 1080 is a highly respected elite hind here at the stud. Many of her progeny have been sold in past sales.

**Comment:** This stag could be one to watch with Adidas as the sire. He was a National 3yr old HA Champion. Matched here to some extra special genetics for us on the dam side with Brusnik (sire of Huneric, Brusnis and many other top industry sires) down to one of our top trophy dams 6285. This stag has started well with his antler at selection with big front tynes. He looks to be wide and in the Brusnik style. Just at velvetting stage.

**Comment:** 7340 is another of those Kallis x Archibald ET combinations. The fact that he has full brothers in the sale is testament to the heritability of this mix. Kallis's heavy beamed antler will combine well with Archibald (sire of Alexander). Its worth pointing out Charlie Mac (Former SCI World Record) on the bottom line. Only two tynes out at selection but we know he had a 46 point antler last year @ 2yrs and so we have taken a punt.

**Comment:** High scoring multi pointed Rigby is the sire. His sire Leon was the highest scoring industry sire by a country mile and still retains that record. We used 7328 as a spiker over yearling hinds and so we are able to offer a yearling hind by him as the next lot, proving his ability as a sire. 7328 has big front tynes, a long beam, but too early to predict points.

**Comment:** Sire 7328 is the previous lot who we used as a spiker over yearling hinds. The result of combining the heritable high scoring antler genetics of Rigby over the exceptionally heavy trophy antler of Spotburn 403. Dam sire Munro had an antler style very typical of Fig Jam. He is also the dam sire of the extremely multi pointed spiker on display at the sale, whose sire is Mordecai is also a Rigby son. Could this mix produce something similar?

**Comment:** Sire Fitzroy has all the attributes of a great trophy sire - a long and wide antler structure with a heavy beam. Dm sire McCaw is also the sire of Cane (841 IOA at just 5yrs). Note too Grand dam 9151 is a highly respected hind in our herd. A former donor hind, you will find her progeny in previous sale catalogues. Her dam 6285 was one of our top trophy dams. Highly recommended.

What a combo and one that promises to impress. 39 points as a 2yr old. This year he has tidy well placed front tynes. Not quite at velvetting stage at selection but we are expecting impressive multi tops.

**Comment:** Sire Munro was looking impressive just prior to his untimely death at the end of the breeding season this year. His antler structure was typical of FigJam. Dam sire is Alexander who has developed a reputation for leaving heavy antlered sons. One of his sons sold in our sale last year for \$62,000 with a very impressive head scoring approximately 650 IOA as a 3yr old. 7033 has very big brow tynes. His antler structure looks wide with multi tops coming at selection.

Recent Wt: 176 kg 17/11/2020

Sale Day Wt:

**Comment:** This stag is a full brother to Lot 49 confirming the heritability of this ET combination. All the heavy weights in the mix starting with sire Kallis (28kg HA). He is also the sire of our master sire Titanic. Dam sire Charlie Mac was a former SCI World Record and Motdonis at 22.45kg HA completes the mix. 7368 has a solid beam and looks to have multi pointed tops but too early to predict points at selection.

**Comment:** Sire Houghton shares his sire Odysseus with many other top industry sires including McCaw and Mentor proving the heritability of this line. Dam sire Legend was another impressive trophy sire. His sire Lewis was also the sire of former SCI World Record Charlie Mac. This young hind has a highly heritable trophy pedigree.
