# Conditions of Sale

## Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

## Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 10.30am.

## DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

## Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

## Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at 24% per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

FOVERAN DEER PARK

# Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

## **TB Status**

Our herd status continues to be a C10 classification.

## **Johnes tested**

All 2 year old sale stags have been Johnes tested clear. Older stags have been tested as two year olds.

## **Guarantee**

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

## **Disclaimer**

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

# Foreword

**Dear Clients and Friends,**

**Welcome to our 32<sup>nd</sup> Annual Elite Sire Stag.**

Bob would have been very proud of the stags we have on offer here today. Prepare to be impressed with this offering which includes spikers selected for their genetics which are not available yet from us as older stags. They include sons of McCaw, Lord Haka and Davidson and so provide a great opportunity to secure our latest genetics.

Our first sale also includes two and three year old stags plus a selection of yearling hinds. These animals are an impressive line - up of elite genetics and are largely the product of our ET program. We expect you will find genetic combinations here that are unavailable elsewhere in the market place.

Our Commercial Sire and trophy stag sale includes a selection of three, four and five year old stags which include the genetics that we built our herd on. These stags have to pass the same stringent criteria we have for our Elite stag sale. As such we know that you will be impressed with this selection. They all have the potential to further improve as they mature or are ready for hunting now.

The stags in both sales will be a great investment as they all will have a high residual value at maturity.

We are again offering helicopter transport to and from the sales to assist you with your travel plans. Please let us know at your earliest convenience if you require this service as we will only be providing it if you have booked in advance. Please contact Barry on (021) 222 8964 to reserve your seat.

We will be offering drinks and a meal between the two sales and so we encourage you to make a day of it. We hope that you can join us and look forward to catching up at the sale.

Kind regards,

Barry Gard & Staff at Foveran Deer Park

# Mission Statement

## **Our motto    Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

*By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.*

**DBVs**    Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

**Velvet**    By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

**Trophy**    The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long timed heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

**Temperament**    We continually manage and evaluate the herd for this important trait.

**COMMENT:** Amadeus, truly the most amazing 2 year stag ever produced. His record breaking huge wide expansive, heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3 years is unbelievable. His exceptional 7 year antler takes pride of place in our trophy room. At 634 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Proven genetics!! Tragically Amadeus died this year, but with good semen stocks he will continue to be part of our breeding programme.

**COMMENT:**

Top credentials at 16.75kg supreme velvet at 8 years. Again the thickness of beam will promote thick heavy antler which is highly sought after by European hunters. We grew his head out last year and he scored a massive 563 5/8 IOA. His antlers remained on his head until July before cutting 13.2kg HA. This weight is considerably less than what they would have been if cut pre rut as with our other sires.

**COMMENT:** Purchased last year from Malcolm Cane for the top price of \$62,000, McCaw is an outstanding addition to our master sire line up. Placed 2nd in the Rising Stars 3yr HA Competition and also voted People's Choice in that competition. Malcolm considered retaining him for a sire. He is a great all round stag with superb temperament, great body confirmation and incredible antlers! Bifurcating brow, beys and treys with super heavy tops. His dam is a full sister to Kane. We consider these genetics to be very high in the ranking with the best head we have ever seen for a 3yr old. Odysseus has shown his genetic consistency with a large number of great 3yr olds produced including our new master sire Houghton who will be on display at the sale. McCaw's first crop of spikers are impressive and we have included a small selection in this sale.

**COMMENT:** Gregor has an impressive antler with big strong tops and good front tynes and will be on display at the sale. You will see that he has earned his place in our master sire line up. He shares his sire Scipio with Morpheus (Record 4 & 5yr head at the time) and his dam sire Commander Peel has produced top 2 yr sale stags: most notably lots 2 and 5 in our 2012 stag sale- both 2 year olds at 190kg & 10.72kg antler and 188kg & 9.29kg antler respectively. This year we are seeing his first crop of spikers which are impressive proving his heritability as a sire.

**COMMENT:** Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. He was the most impressive 3 year old sire offered the year we purchased him. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great.

**COMMENT:** Fov Windsor's pedigree impressed us. Of our 3 Warlord sons, this is the most impressive trophy pedigree. Warlord at 573 at just 5 years is an impressive sire who has the "wow" factor for trophy hunters. Add this over Awesome at 520 IOA at just 4 yrs with Heathrow in the background and we have a genetically proven safari pedigree. Sire of Lord Haka at 201kg, HA 13.5kg and IOA 502 at just 2 years, Fov Windsor has established himself as a very heritable sire in our breeding programme.

**COMMENT:** Apollo has been strategically bred for big royals on a wide spread, with good body and temperament and we have got the lot! An exceptional trophy mix in his pedigree. Also interesting to note that grand dam 1003's brother 'Little Rock' had an IOA score slightly ahead of Salvador at 2 years. Great grand dam 3068 is the mega dam at Pelorus Deer stud for trophy genetics. 5th in the 2009 Rising Stars HA competition, and with 2 other full brothers in the Top 5, this confirms the heritability we can expect from this rising star. Apollo is impressive this year with his best head yet.

**COMMENT:** Archibald, purchased by Foveran from Dave and Mac Bryant, confirms our commitment to purchasing the very best English genetics available. This guy's antlers are enormous with a very thick beam and strong long heavy tines. This combination is heritable, cemented by 96079 (Bentley's dam) & will undoubtedly pass on with our specially selected females to enhance these already huge antler stats, to his progeny. Sire of lot 1 in 2010's stag sale with the new World Record HH weight of 12.53kg at just 2yrs (sold to John Hunter) Also sire of our new master sire Alexander (19.36kg HA at just 3yrs) confirming the heritability of his heavy beamed antler genetics. His stag progeny will be highly prized by the European hunter fraternity.

Also worth noting is that his 13.5kg antler is a new industry record. Now owned by the Fraser family of Mt Cecil, we continue to use this impressive sire in our breeding program.

It is worth noting that Chancellor Peel is also the sire of Salvador (IOA 575 @ 5yrs) and Commander Peel (IOA 429 @ 3yrs) confirming the heritability of this line for high scoring long tynded antler highly sought after by the trophy industry. With a main beam of 40 & 42 inches and a span of 29 inches and 40 points, Odysseus is the ideal trophy sire. Sire of our new master sires McCaw and Houghton, he continues to play a large part in our breeding programme.

**COMMENT:** Purchased by Peter Adlam from Tower Farms, he was the top priced stag at their sale that year. Sired by our master sire Pegasus, over Brusnik (sire of Huneric and Zidarn). Faulty Towers is maturing into a top master sire with an impressive trophy score of 558 IOA at just 4yrs old with extremely long front tynes and tops. We have included this impressive master sire in our breeding programme again this year.

**COMMENT:** Achilles, owned by Sarnia Park, is incredible with his huge cluster of long top tines and long beam. He has to be one of the best 5 year stags ever to grace our pastures here in New Zealand and with his massive 572 IOA at 6 years is nothing short of amazing. An eye catching orchestra of antler. He has sired many industry greats with exceptional antlers. Achilles is the sire of our master sire Apollo, and also Discombe and Holy Oak.

**COMMENT:** Charlie Mac has two younger brothers who are knocking on the 500 IOA score proving the heritability of his breeding. He has very thick heavy antlers weighing in at 20.6kg last year. Remember here the amazing heritability of Lewis, his progeny are consistently spread throughout the industry, and back down to Brian. Impeccable genetics!! Charlie Mac was shot as a trophy at Foveran and officially measures 615 4/8 by two master measurers. This confirmed him as the former SCI World Record #1. His huge antler weight was the main drawcard for the hunter confirming that the demand for heavy beamed trophy antler is growing.

**Comment:** Amadeus is the epitome of a master sire for both bodyweight and antler. He is the sire of Sebastian and also Lot 2 at our 2013 stag sale, a 2yr old @ 190kg cutting 10.81kg antler sold to Bill Russell for \$9,500. Dam 6285 was the dam of Lot 1 and 2 at last years Elite Stag Sale - two exceptional 2yr olds which confirmed her as one of our top performing dams. Her sire Kane is a full brother to Hector and his dam sire Salvador is also the dam sire of Lord Haka (689 IOA at just 4yrs). This young sire looks to be developing big multi tops.

**Comment:** Sire Prince Philip was the SCI World Record for 2012 and is still ranked number two in the record book. He was the sire of lot 1 and 2 at last year's stag sale. Dam sire Legend at 655 IOA was impressive. He shares his sire Lewis with former SCI World Record sire Charlie Mac. There is a strong influence in the bottom line of the pedigree for heavy velvet with Taylor and National Velvet Champ Harvey. This young sire has a strong multi topped head of antler estimated at 11 x 10 points.

**Comment:** Amadeus is the sire of Sebastian along with the impressive Lot 3 in this sale. He is a top all round stag for both bodyweight and antler. Dam sire Woody has produced a number of top 2 year olds for our sale - notably Lot 4 in 2013, a 2yr old at 204kg with 9.56kg antler sold to R. Ponsonby for \$17,000 also. This young stag has nicely placed front tynes, too early to estimate points but he looks to be multi topped.

**Comment:** Prince Philip was the SCI World Record Trophy sire for 2012 and he still remains at number two in the record book. He was also the sire of Lots 1 and 2 at last years stag sale. Dam sire Hannibal was National 2yr HA Champ. Note too Brusnik is the sire of Huneric and Zidarn. This young sire has strong well placed front tynes with a thick heavy beam but its too early to estimate points at time of writing.

**Comment:** Henry VIII has a heavy beamed antler inherited from Henry James who held the record for 2yr antler weight until it was beaten by one of his sons. Dam sire Commander Peel produced an impressive line of 2yr stags for our 2012 stag sale - most notably Lot 2, at 190kg with 10.72kg antler and Lot 5 at 188kg with 9.29kg antler. Mountbatten on the bottom line is the sire of Prince Philip (former SCI World Record). This young sire has a very wide antler, basal snags, a bifurcated left trey. We estimate 10 x 9 points.

**Comment:** Lord Haka is undoubtedly one of the best stags we have ever produced. He is now owned by Mt Cecil and we continue to use him as part of our breeding program. Dam sire Woody is the current SCI World Record at 771 IOA. He has produced some exceptional stags at past stag sales—most notably Lot 4 at our 2013 stag sale, a 2yr old at 204kg and 9.56kg antler sold to R Ponsonby for \$17,000. It is interesting to note that dam 207/10 is a full sister to that stag. This young stag looks to be 6 x 6 and his antler is very thick and beaded.

**Comment:** Lord Haka is undoubtedly one of the best stags we have ever produced at 689 IOA at just 4yrs. Now owned by Mt Cecil, we continue to use him in our breeding program. Dam sire Zidarn was National HA Champ and he shares his sire with Brusnik confirming the heritability of this dam line. A powerful mix and one that has a great future. This young stag's antler is very early at time of writing but looks to have great potential and could be wide.

**Comment:** Henry VIII has a heavy beamed antler inherited from Henry James who held the industry record for 2yr antler weight until it was beaten by one of his sons. Dam 9119 is a full sister to Prince Philip who was the SCI World Record Trophy sire for 2012. Her dam sire Lewis is also the sire of legend and another former SCI World Record, Charlie Mac. Remember this three year sire can mate larger numbers of hinds. He has heavy bases, is very wide with big front tynes and looks to have the potential to have 15 x 15 points.

**Comment:** Woody is the current SCI World Record Trophy sire. He produced an impressive line of 2yr olds for our 2013 stag sale - most notably Lot 4 at 204kg with 9.56kg antler sold to R Ponsonby for \$17,000. Dam sire Hector was impressive in his prime at 623 IOA and 57 points. He is a full brother to Kane and their sire Harvey was a National Velvet Champ. This stag has good front tynes, heavy tops and a thick beam as you would expect from this breeding. We estimate 13 x 15 points.

**Comment:** McCaw was placed 2nd in the National 3yr HA Competition and also voted People's Choice. His spiker sons this year confirm his heritability as a sire and he continues to be impressive. Dam sire Huneric was National 2yr HA Champ and he impresses us as a sire. Note his 2yr sons in this sale. Holy Oak on the bottom line was National 3yr HA Champ and now at 652 IOA is impressive. High achievers throughout this pedigree.

# Commercial Sire & Trophy Sale

Monday 5 January 2015, 5pm

**We expect this sale to start at 5pm, after a break for a meal and refreshments from the first sale.**

Lot numbers start at 84 to avoid confusion at the time of delivery.

These stags have been selected on their own merit for both antler and bodyweight, and not necessarily for their pedigrees. They have the same genetic base as the remainder of our herd and so we know they will breed on well and introduce top bodyweight and antler genetics into your herd.

Please also remember they are mostly older than 2 year stags and so they CAN MATE LARGE NUMBERS OF HINDS.

Many of these stags have excellent antler and could also be considered for their trophy hunting value.

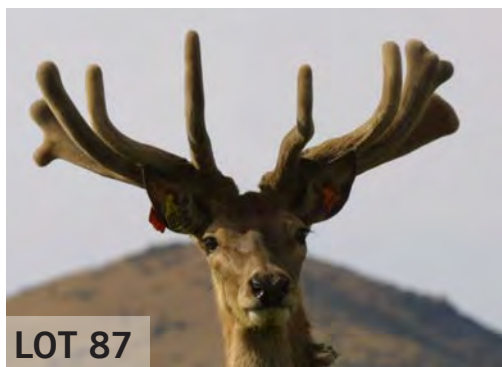

Good luck with your bidding and purchases!

**Comment:** Amadeus is the sire of Sebastian and many top performing stags in this catalogue. He promotes bodyweight and antler in his progeny and this is evident in this stag. Dam sire Apollo was sire of lot 1 in our 2012 stag sale, a 202kg 2yr old sold to L McDonald for \$13,000. He is also a full brother to Holy Oak and Discombe. This stag has a very heavy beam and tops with a bifurcated extra trey on the right ideal for trophy potential at maturity. A big framed stag.

**Comment:** Henry VIII has a heavy beamed antler inherited from Henry James who held the industry record for 2yr antler weight until it was beaten by one of his sons. Dam sire Commander Peel produced an impressive line of 2yr old sons for our 2012 stag sale - most notably Lot 2 @ 190kg with 10.72kg antler and Lot 5 at 188kg with 9.29kg antler. Mountbatten is the sire of Prince Philip (SCI World Record 2012). We estimate this stag to have 15 x 14 points.

He shares his sire Chancellor Peel, with Odysseus, Salvador, Commander Peel and many other industry greats. Dam sire Discombe is impressive at 595 IOA at just 5yrs. Discombe was a National 2yr HA champ. This stag looks to be developing a multi topped antler - possibly 10 x 10 points but a bit early to tell.

**Comment:** Metallica at 679 IOA was impressive and would have been an SCI World Record if he was taken as a trophy at the time. He is also the sire of our new master sire, Lorde. Dam sire Hector is a full brother to Kane and their sire Harvey was a National Velvet Champ. This young stag is developing an antler typical of this breeding.
