

FOVERAN DEER PARK

BREEDING THE DIFFERENCE

40TH ANNUAL ELITE HIND & WEANER SALE

MONDAY 7TH AUGUST 2023

ONLINE USING THE BIDR PLATFORM @ 7PM

OFFERING TO INCLUDE MATINGS TO AND PROGENY OF:

CANE
841 IOA @ 5yrs

ROBERT HAY
713 IOA @ 4yrs

MORDECAI
740 4/8 IOA 58 pts 21.24KG @ 5yrs

BRUNSWICK
588 IOA 43 PTS 18.66KG HA @ 4yrs

ALSO FEATURING JORDAN AND ZAMSON ON THE BACK COVER PLUS PURDEY, FERDINAND, ILLUSION (NASHVILLE), UTAH (HALF BROTHER TO BOMBAY SAPPHIRE), ORIGIN, TITANIC, CLEOMEONES, HENNESSEY, BOMBAY SAPPHIRE, TRUMAN AND SAM.

Conditions of Sale

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding). All stock sold are DNA guaranteed.

Insurance

Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Vetted In-Calf Hinds

All adult hinds have been ultrasound pregnancy tested using a real time ultrasound scanner. Only confirmed pregnant hinds have been included in the sale. All testing was carried out by Dr Noel Beatson and our vet Amy Watts.

TB Status

Our herd status continues to be a C10 classification.

Conditions of Sale

The sale will be conducted by Rural Livestock Ltd with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Conditions of Sale cont./ Guarantee

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

The sale is conducted exclusive of GST.

A buyers commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with Rural Livestock Ltd.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of the respective stud.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—
"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

Foreword

Dear Clients and Friends,

We are continually looking for new genetics to introduce into our herd. As a result, you will see combinations that we haven't used before in our efforts to create tidy stylish antler with the wow factor. Of course, we have continued to use stags that are showing encouraging results.

Look out for Utah, a half brother to Bombay Sapphire, Illusion who was the highest priced stag sold this season, Purdey who scores in excess of 900 IOA, Ferdinand who is a rising star and the son of high scoring Alonso, and Origin who is the sire of Texas.

Cane also features in a number of pedigrees in the sale, and we know his genetics are extremely heritable as we demonstrated in our recent stag sale.

It is also worth remembering that these stag genetics only work so well due to our hind base which we are continually improving. The value of sourcing top female genetics cannot be underestimated and the investment you make in these genetics on offer will pay dividends for some time to come in your herd.

Please note that the embryos come with the guarantee of a live fawn on the ground. All hinds have been vetted in calf by our vet Dr Amy Watts.

Lastly, I'd like to thank you for perusing this catalogue and to those purchasers and under bidders who participate in this sale.

We wish you all the best with your purchases and we look forward to any feedback you may wish to share with us.

Kind regards,

Barry Gard,

Deer Stud Manager, Foveran Deer Park

Mission Statement

Our motto **Breeding the difference**

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tined heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

3	HA 15.5kg	641 IOA
4	HA 22.14kg	751 IOA
5		841 IOA

COMMENT: Cane has been bred here at Foveran. A son of the very heritable McCaw who has produced us so many top stags in previous sales. At 504 5/8 IOA, Cane was placed 4th in the National 2yr HA Competition. As a 3yr old he was placed 3rd in the 3yr section. As a 4yr old he was placed 2nd in the 4yr section of the Rising Stars at 751 IOA. He was also placed 2nd in the National HA Competition. His mass of antler is impressive.

3	57pts 17.21kg HA	664
4	60 pts	713
5	62 pts 23.7kg HA	708 6/8

COMMENT: Robert Hay is a full brother to Henry Wider which we sold to Mike Dempsey as a three year old. Together with their sire Apex, all three stags have scored in excess of 700 IOA at 5 years. All three stags also have eye catching antler styles with the "wow" factor proving the heritability of these genetics. Robert Hay is a big bodied stag that would easily be 300kg at his peak. We recommend his progeny.

585 IOA

CAN 227/06

Comment: Sire Origin won the Supreme award at the SCNO antler competition. We were impressed with his very long beam and tynes. He is also the sire of Texas (975 IOA @ 5yrs). Dam sire Dallas is 700 IOA at 6 years. Dallas semen is not available and so this represents a rare opportunity to secure these valuable genetics.

PDS 203/04

Comment: We don't offer weaner stags very often these days so these two on offer are a rare opportunity to secure stags with some of our latest genetics. The next opportunity will be when these stags are 3 years old. Sire Purdey is one of only a handful of sires to exceed 900 IOA in the industry. Dam sire Brusnik is also the sire of Brunswick (42" main beam @ 4yrs!) A very heritable bottom line on this pedigree as well.

FOV 6277/06

Comment: Sire Zamson shares his sire Zambuka with Bombay Sapphire (843 IOA @ 2yrs!) We expect this top line to be extremely heritable. Dam sire Rigby is one of only a handful of sires to exceed 900 IOA. This elite group also includes his sire Leon! Grandam 2158 is out of a full sister to Lord Haka. Great potential in this pedigree.

Comment: Sire Titanic we believe has the potential to push up a really high scoring antler. His antler is extremely thick and heavy. We used him heavily last year and this may have affected his ability to finish his 70 point antler. We have rectified that this year and so watch this space! Dam sire Munro is also the sire of Damascus. His antler never reached its full potential due to his untimely death but we know it is extremely heritable. Dam 7009 has been a donor in our ET program. Vetted in calf to Brunswick to promote length and width in the resultant progeny's genetics.
