Conditions of Sale

Venue

Foveran Deer Park sales complex, Foveran Deer Park, Haka Valley, Kurow, North Otago, 8km from Kurow (will be signposted).

Deer Inspection

Deer may be inspected in the paddock at any time prior to the sale by arrangement. On DAY OF SALE deer may be inspected from 10.30am.

DNA Identification

All Foveran master sires and our entire stud female breeding herd have now been DNA profiled (for confidence in the accuracy as to our breeding).

Insurance

Insurance facilities are available at the office. Insurance is the responsibility of the purchaser and any stock left on Foveran is strictly at the purchaser's risk.

Conditions of Sale

The sale will be conducted by PGG Wrightson with the conditions of sale as set down by the New Zealand Stock and Stations Agents Association, a copy of which is exhibited in the office on sale day.

Each lot becomes the purchaser's property and risk at the fall of the hammer.

Warranties and insurance are covered under separate headings.

Terms are strictly cash unless prior arrangements are made with the auctioneers. Accounts not paid within 14 days of sale shall bear interest, at current rate per annum from the date of sale.

If payment is not received within 30 days from sale, reservation of title will revert to Foveran for security purposes until account is paid in full, including interest owing.

The sale is conducted exclusive of GST.

A buyer's commission of 5% is payable to non-participating companies and recognised independent agents introducing and accompanying purchasers to the sale providing prior arrangements [no later than 24hrs prior to sale] are made with PGG Wrightson.

Intending purchasers are required to register with the auctioneers prior to the commencement of the sale.

FOVERAN DEER PARK

Conditions of Sale cont./ Guarantee

No animals, embryos or semen sold by Foveran Deer Park or their germplasm or any subsequent progeny or germplasm, including the semen and germplasm of that progeny, may be supplied to a third party without the written permission of Foveran Deer Park.

This condition does not affect normal commercial deer farming or stud farming or the normal sales of semen or embryos as it only applies to entities with the primary function of commercial semen/germplasm activities.

It is a condition of sale of any animals, embryos, germplasm or semen sold by Foveran Deer Park that the purchaser agrees to include the following clause as a condition of any subsequent sale or gift of any animal, embryo, semen, germplasm or subsequent progeny or germplasm to a third party—"the purchaser acknowledges that it will not supply any animals, embryos, semen or germplasm to any commercial semen/germplasm marketing or sales entity, and will ensure that this clause is inserted as a condition of any sale or gift of any animals, embryos, semen or germplasm."

TB Status

Our herd status continues to be a C10 classification.

Johnes tested

Sale stags up to 3 years of age have been Johnes tested clear. Certificates are available and will displayed for all sale animals tested.

Guarantee

All sale stags are guaranteed in terms of their genetic performance and temperament through DNA profiling. This does not include sickness or injury. All deer in this sale are tested for Johnes and are deemed sound for use as a sire stag. Any stag that does not meet the standards mentioned above will be replaced or a full credit given to use at a subsequent Foveran Deer Park Sale.

Disclaimer

Number of antler points – owing to the lateness of stags this year at the time of selection, we have estimated the number of points we expect to see at the time of sale. Please note these are estimates only and we give no guarantee as to the actual number of points on sale day.

Foreword

Dear Clients and Friends,

Welcome to our 30th Annual Elite Sire Stag Sale.

Thirty years of breeding has culminated in the deer on offer at this sale. We have continued to bring together the best genetics the industry has to offer in our breeding programme in an effort to breed the ultimate all round stags. We continue to be amazed at what is coming through and are proud to be able to share these genetics with you.

We are again having two sales this year. Our Elite Sire Stag Sale includes animals with the very best genetics from the industry and have mostly been bred from our ET breeding programme. This sale includes spikers and yearling hinds as well as two and three year old stags.

Our Commercial Sire and Trophy Sale includes a selection of two and three year old stags which include the genetics that we have built our herd on. This mob has not been selected from before. The stags have been selected on their own merit and have had to pass the same stringent selection criteria of those in our Elite Sale. What we can tell you also is that these stags had stunning spiker and two year old heads. Now as 2 and 3 year olds, they certainly look the part and we know you will be impressed.

We are offering helicopter transport to and from the sale again this year. We have had great feedback about this service. We will have collection points in Christchurch, Ashburton, Timaru, Wanaka, Dunedin and Balclutha. Please remember to let us know if you wish to book a seat. Please phone Barry on (03) 436 0680 or 021 2228964.

We will be offering a meal and drinks between the two sales, so we encourage you to make a day of it. We hope you can join us and look forward to catching up at the sale.

We wish you all the best with your purchases and look forward to hearing back from you regarding their progress.

Kind regards,

Bob Robertson
Owner

Deer Stud Manager
Foveran Deer Park

Mission Statement

Our motto Breeding the difference

a term that best describes our intention for our deer stud at Foveran.

By continuing our intensive breeding programme in what we believe is the largest red deer stud in New Zealand, it is our intention to supply the NZ deer industry with the very best genetics for venison growth rates, velvet production, and also our fast growing high end trophy antler stags.

DBVs Venison growth rates. We continue to develop this major trait within our deer herd, with encouraging results. Our German herd for example, with Master sires such as Amadeus, Bonn, Wredeson Major & Red Baron leading the way, and some of our weaners at weaning in February topping out at 90kg. Yearling spikers to 155kg and 2 year olds to 253kg.

Velvet By identifying specific lines of deer for velvet production, we are constantly improving the performance per animal to improve not only the production levels per animal but also the components of velvet conformation. As a result our velvet herd continues to grow with fast improving results.

Trophy The fastest growing component of our deer industry at present. Foveran's commitment is to supply for ourselves high end trophies, but also to supply elite trophy genetics to the deer farming community. The continued improvement of our trophy herd is rewarding us with some massive red deer trophy antler heads with long tined heavy wide "wow" type configurations. Our German herd strategically crossed with European and English genetics has given us the opportunity to do that.

Temperament We continually manage and evaluate the herd for this important trait.

Background History

Glaadt Park Herd

Our commitment to the deer industry started way back in the early 1980s with the introduction of an Elk herd. Alongside that we imported the famed Schulte Wrede herd from Glaadt Park, Germany. This herd was made up of the top bloodlines throughout Germany and concentrated on Glaadt Park.

The balance of the Glaadt Park herd was eventually purchased, and after farming them in England for a short time we then imported them into New Zealand. The herd was culled, dissected and managed for two main genetic traits—antler formation and body weight. Some of the earlier stag weights were enormous with stags in the 300-350kg range. Antler formation was similar to the style and conformation of their forebears.

Since the herd arrived in New Zealand performance has improved and with the same breed influences of Red Baron, Myson, Munich and Image, an accelerated effect is becoming prevalent. To date our top line weaner stags are topping 90+kg at the end of March and our weaner hinds at 83+kg at the same time. Antler performance is also showing through with 8-12kg Hard Horn heads at 2 years old becoming the norm.

One of our top performing master sires Wredeson Major, a direct descendant from Wrede, is a perfect example of our genetic improvement. He weighed in at 303kg at 3 years with a 40 point, 10.2kg head at 405 SCI. That body weight would rate as one of the heaviest 3 year red deer weights anywhere in the world. The important point here though, is this stag has all three traits: record live weight, huge antler and superb temperament.

On top of that, the following year we produced "Amadeus", an amazing animal with the biggest antler structure for a 2 year old the world has ever seen, clocking in at an incredible SCI score of 427, bodyweight of 218kg and a record 10.43kg HA. They are certainly powerful and heritable genetics.

We expect with continual management using DNA and hind indexing, that this herd will continue to grow and show that this is an exceptional herd of deer.

Background History

Warnham/Woburn Herds

The two main strains of English deer that make up our herd at Foveran are from Warnham and Woburn bloodlines.

The Warnham herd, owned by the Lucas family, has had a strong influence in the deer introduced into New Zealand. For instance the Poulter herd, introduced in the early 1900s at the Waimakariri, consistently grew big palmated multi-point heads and latterly introduced into New Zealand for farming in the late 1980s. They have proven themselves time and time again with record heads and velvet weights. An example would be William John, unquestionably one of the best Warnhams ever produced, with a record antler of 532 SCI at 5 years with 68.5" outside spread. And the following year he had a huge head of 19.2kg Hard Horn and 552 SCI est. On top of that is Mountbatten (Hercules x Duncan, Sire of Prince Philip), one of the most highly regarded Warnham stags in the country, and of course "Sovereign."

The Woburn Abbey herd has also influenced our subsequent deer herds around New Zealand with genetics such as Russell, Harvey, Kane, Hector, Bradford, Lord T and Berry End; and others too numerous to mention but equally important. Hector last year scored 623 SCI which firmly cements him as one of the leading trophy sires in the industry.

The crossing of the lines over traditional German and Eastern bases have left new antler records all over the country. The importance of these English introductions to our now famed German herds cements this. Their multi-point antlers are very heritable and show what a strong genetic strain of deer they are.

6	318kg	15.5kg HA stripped	604 7/8
7	322kg	16.1kg	634

COMMENT: Amadeus, truly the most amazing 2 year stag ever produced. His record breaking huge wide expansive, heavy beamed head of 31 points and 427 IOA, with a huge bodyweight of 260kg at just 3 years is unbelievable. His exceptional 7 year antler takes pride of place in our trophy room. At 634 IOA he really does have the "wow" factor. The Wrede bloodlines are proven with such sires as Wredeson, Wredeson II, Wredeson Major, and now Amadeus. Proven genetics!! Amadeus is now producing some of our best younger stags including Sebastian.

COMMENT: Unfortunately we lost Image during the rut this year. He has left a huge legacy with his progeny in our herd. His very wide and thick heavy antler style will continue to be highly sought after by the hunting fraternity. Also an excellent sire to promote velvet weight in your herd. We will continue to use Image in our breeding programme using AI and so we will continue to have his progeny to offer in future sales.

8	16.75kg Supreme Velvet	
9	13.2kg HA cut July	563 5/8
10	13.1kg HA cut July	521

COMMENT:

Top credentials at 16.75kg supreme velvet at 8 years. Again the thickness of beam will promote thick heavy antler which is highly sought after by European hunters.

We grew his head out last year and he scored a massive 563 5/8 IOA. His antlers remained on his head until July before cutting 13.2kg HA. This weight is considerably less than what they would have been if cut pre rut as with our other sires.

3	215kg	Damaged

COMMENT: Sired by Amadeus and following closely in his footsteps with his antler style and frame size. Sebastian was 209kg as a 2 yr old with an impressive looking antler structure. Unfortunately at 3 yrs, he got tangled in wire just as his royals were developing and despite removing the wire, the antlers were affected and eventually had to be removed as they had stopped growing. It has taken him two seasons to recover from that accident which also affected his bodyweight. This year though he has put up an impressive head and he will be on display at the sale. A point worth noting is that his progeny are ranking highly for DBVs in our herd.

5	253kg	HA 15.98kg	509 1/8
6	253kg	HA 18.6kg	619
7	262kg	damaged tops	

COMMENT: Purchased from Westbush Deer Stud, Henry VIII is a son of our own Henry James. He has an impressive heavy set of antlers typical of many of Henry James' sons. He was the most impressive 3 year old sire offered the year we purchased him. We were so impressed with him we couldn't resist purchasing these genetics back for our own herd. He is a major player in our breeding programme and at 619 IOA at just 6yrs, the offering in this catalogue represents a great opportunity to secure some progeny from this future industry great. No IOA score for his antlers last year due to damage but he will be on display at the sale in full antler this year and he is certainly very impressive.

6	285kg	HA 14.53kg	506 damaged

COMMENT: Apollo has been strategically bred for big royals on a wide spread, with good body and temperament and we have got the lot! An exceptional trophy mix in his pedigree. Also interesting to note that grand dam 1003's brother 'Little Rock' had an IOA score slightly ahead of Salvador at 2 years. Great grand dam 3068 is the mega dam at Pelorus Deer stud for trophy genetics. 5th in the 2009 rising stars HA competition, and with 2 other full brothers in the Top 5, this confirms the heritability we can expect from this rising star. Apollo is impressive this year with his best head yet.

COMMENT: Hector, a full brother of Kane (purchased for \$100,000 off Sarnia Park) has very good heritability anchored against very solid genetics in his background i.e. Harvey and the famous Woburn 80. His massive multi point head of 535 IOA at just 5 years was awesome. He is used extensively over our Germans to enhance trophy genetics within our herd. His 57 point head remains impressive. This year he has developed hugely strong outrigger tynes with the remainder of the antler structure intact and so we look forward with interest to see what happens next! An impressive Woburn sire.

COMMENT: Salvador over the great Laszlo and Nova's dam. Foveran specifically targeted Salvador, Chancellor Peel, Super Nova and Laszlo breeding for superb trophy antler architecture. This stag was huge in the bow, bey, trey and main beam as a 2 year old and produced an amazing 3yr antler of 406 SCI. At 5 years Konrad ranked as one of our heaviest master sires in both bodyweight and antler. These are superb genetics for the trophy industry and a highly recommended sire.

4	220kg	10.04kg HA	418 4/8
5	243kg	11.15kg HA	469 1/8

COMMENT: Another new addition to our master sire line up. Sire of the 40 point spiker placed second in the National 1yr HA Comp (sold to J Hansen for \$35,000). An impressive performance! Here we have strategically targeted Mr Peel (full brother to Chancellor Peel) over the very heritable Lewis (the first 30 point 2year old to be produced in this country and dam sire to Prince Philip). The heritability of this mix is proven by a full brother to Dam 008 with 30+points at just 5 years old.

Lord Ferguson

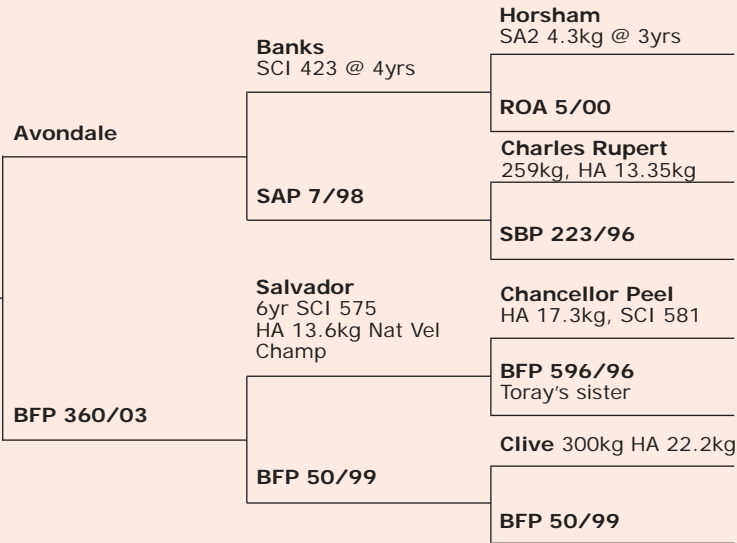

Son of Avondale, Dam side Salvador/Clive

Lord Ferguson

Photo taken at 3 years

Lord Ferguson

COMMENT: Lord Ferguson was chosen not only for his pedigree, but also for his hugely wide antler and long tynes. Dam sire Salvador is also sire of Lord Haka (201kg, 13.5kg of antler, IOA 502 at 2 years). Back to Chancellor Peel (sire of Odysseus, Broadband, Commander Peel and other industry greats) confirms the heritability of this sire. He will be on display at the sale in full antler.

5	300kg	16.37kg HA	445
6	302kg	16.83kg HA	508 2/8

COMMENT: Archibald, purchased by Foveran from Dave and Mac Bryant, confirms our commitment to purchasing the very best English genetics available. This guy's antlers are enormous with a very thick beam and strong long heavy tines. This combination is heritable, cemented by 96079 (Bentley's dam) & will undoubtedly pass on with our specially selected females to enhance these already huge antler stats, to his progeny. Sire of lot 1 in 2010's stag sale with the

new World Record HH weight of 12.53kg at just 2yrs (sold to John Hunter) confirming the heritability of his heavy beamed antler genetics. His stag progeny will be highly prized by the European hunter fraternity.

6	20.6kg HA	523
7	Trophy	615 4/8

COMMENT: Charlie Mac has two younger brothers who are knocking on the 500 IOA score proving the heritability of his breeding. He has very thick heavy antlers weighing in at 20.6kg last year. Remember here the amazing heritability of Lewis, his progeny are consistently spread throughout the industry, and back down to Brian. Impeccable genetics!! Charlie Mac was shot as a trophy at Foveran and officially measures 615 4/8 by two master measurers. This confirmed him as the former SCI World Record #1. His huge antler weight was the main drawcard for the hunter confirming that the demand for heavy beamed trophy antler is growing.

COMMENT: Achilles, owned by Sarnia Park, is incredible with his huge cluster of long top tines and long beam. He has to be one of the best 5 year stags ever to grace our pastures here in New Zealand and with his massive 572 IOA at 6 years is nothing short of amazing. An eye catching orchestra of antler. He has sired many industry greats with exceptional antlers. Achilles is the sire of our master sire Apollo, and also Discombe and Holy Oak.

2 Year Olds

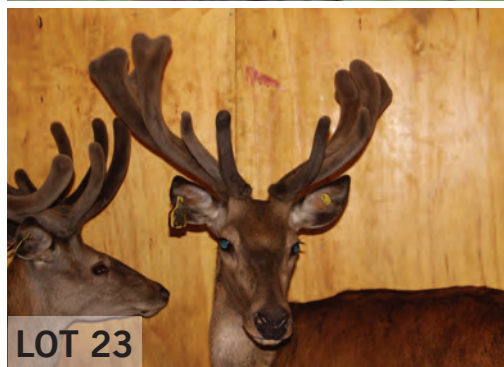

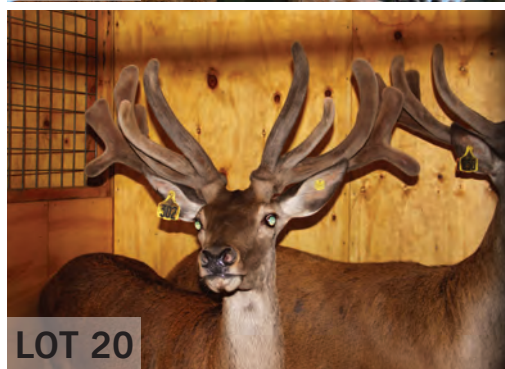

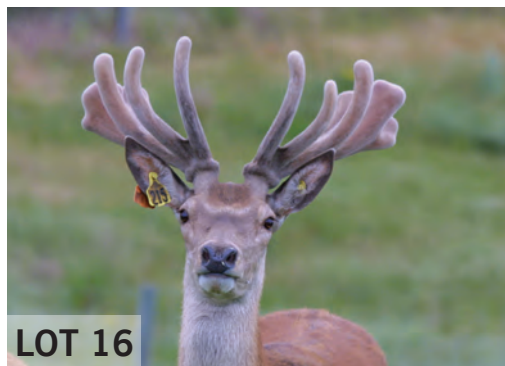

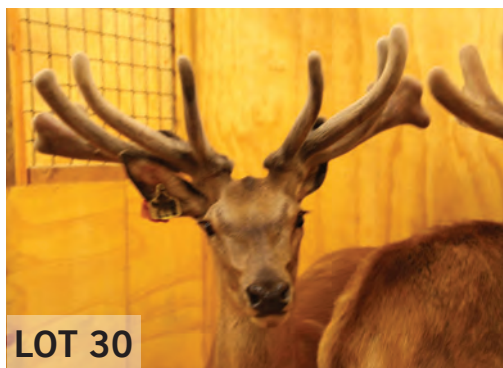

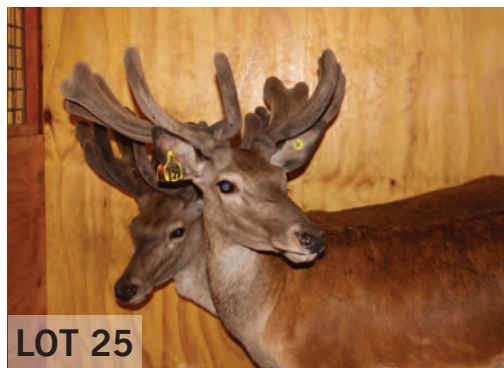

2 Year Old Photos

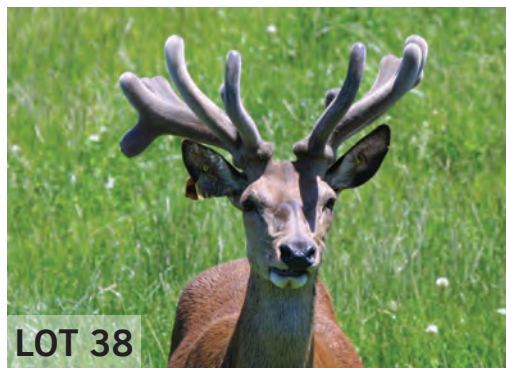

Note: Not all stags had developed their tops at the time of printing our catalogue. We expect these stags will be looking their best on sale day.

Comment: Woody impresses us as a sire. At 680 IOA, he ranks as one of the highest scoring stags in the industry. As you will see from his sons in this sale, their BVs are among the highest for weaning weight and this is consistent with all of his progeny. Note also the eye-catching antler style in the dam line with Hannibal and Salvador (dam sire of Lord Haka). This stag is highly recommended. 15 x 17+ pts. Bifurcated brow and trey. Strong front tynes, long symmetrical antler. A big framed deer with a perfect head.

Comment: We continue to be impressed with Woody as a sire in our herd. Of the 308 2yr stags that we ranked for BV, Woody sired 4 of the top 2yr olds for weaning weight. This is reflected in the BV of this stag which is impressive for a Pure English stag. Dam line also worthy of a mention with 57pt Hector (full brother to Kane) and back to National Velvet Champ Harvey, former SCI #1 Tamar, and CIC champ Hotspur. Very big multi tops coming with a thick beam. Too early to estimate points.

Comment: This pedigree is all about multi point trophy antler with Woody (IOA 680) as the sire. Dam sire Hector at 623 and 57 points and full brother to Kane can only add to the heritability of the mix which is cemented with Lewis (dam sire of current SCI World Record Prince Philip, and sire of former SCI #1 Charlie Mac. Also worth noting is the BV of this young sire. Good front tynes and heavy multi pts to come. 12 x 13pts.

Comment: Woody impresses us as a sire. At 680 IOA, he ranks as one of the highest scoring stags in the industry. As you will see from his sons in this sale, their BVs are among the highest for weaning weight and this is consistent with all of his progeny. Note also the eye-catching antler style in the dam line with Hannibal and Salvador (dam sire of Lord Haka). This stag is highly recommended. Very long front tynes. 11 x 10pts.

Comment: Woody continues to impress us as a sire in our herd. The BVs from his progeny all in the top 25% of our herd and of the over 300 2yr stags we have ranked he has 4 in the top 10 for weaning weight. An impressive effort for an English sire. At 680 IOA at just 5yrs he is impressive and must rank among the elite sires in the industry who have achieved this at such a young age. Over Jamieson, sire of Chancellor Peel and Scipio and down to Mountbatten, sire of current SC1 World Record Prince Philip (669 IOA at just 7yrs). This is an impressive record for this stag to pass to his progeny. A long beamed antler with multi tops, 22pts.

Comment: Woody's progeny as you can see from the stags on offer in this catalogue have some top ranking BVs in our herd, and remember this stag is Pure English which makes the BV even more impressive. Woody's high scoring antler at 680 IOA over the very heritable Henry James who held the record for 2yr HH until it was beaten by one of his sons. These heavy beamed antler genetics on the dam side are further cemented with Charlie Mac on the bottom line at 20.6kg HA former SCI World Record trophy. This makes for top trophy and velvet antler for this young stag to pass to his progeny. A long beam and tops, 9 x 9pts.

FOV 270/10

Comment: Amadeus, at 318kg and eye-catching 634 IOA of antler, is an impressive sire. His sire Myson was National Velvet Champ. Dam sire Shock'nor won the Maiden section and Peoples Choice at the North Island Velvet Competition with 7.75kg SA2 at 5yrs. His sire Awesome is also the sire of Moccona, Flash, and Awesome Too. We recommend this pedigree for both velvet and trophy antler. Good front tynes. Too early to tell points. A quiet stag.

Comment: Sebastian is showing great form in our sire mob this year. He has a hugely long tynded antler this year that really stands out in the crowd and follows closely in the footsteps of his sire, Amadeus. Well matched to the antler style of Image and with National Velvet Champ, Myson to ensure heavy beamed antler genetics. Note the BV also which has attracted our attention with other Sebastian progeny as well. A multi point head est 20 points.

Comment: Amadeus is a top all round sire for both bodyweight and IOA score. And his eye-catching rack of antlers is what excites the trophy hunting industry. He is the sire of our rising star Sebastian and also has high ranking 2yr sons for BV as you can see here. Dam sire Achilles is the sire of Apollo (IOA 506), and also Discombe (Nat 2yr HA Champ) and Holy Oak (National 3yr HA Champ). Also note Warlord (sire of Fig Jam), Adonis (sire of Metallica), and Awesome (sire of Flash, Moconna and Awesome Too) on the bottom line, to further cement the heritability factor for this young sire. A multi point head est 20 points.

Comment: Woody continues to impress us as a sire in our herd. The BVs from his progeny all in the top 25% of our herd and of the over 300 2yr stags we have ranked he has 4 in the top 10 for weaning weight. An impressive effort for an English sire. At 680 IOA at just 5yrs he is impressive and must rank among the elite sires in the industry who have achieved this at such a young age. Over Jamieson, sire of Chancellor Peel and Scipio and down to Mountbatten, sire of current SC1 World Record Prince Philip (669 IOA at just 7yrs). This is an impressive record for this stag to pass to his progeny. 16 points.

Comment: Sebastian is looking his best this year and at time of writing is coming out into what looks to be impressive tops. With his background which includes Amadeus, Red Baron, Wrede and Wredeson, he is a worthy match for one of our top performing Schulte Wrede dams 6666. She was the dam of lot 10 sold to G Elder for \$22,000, a 2yr old @ 200kg cutting 10kg antler. Also dam of lot 16 sold to M Wilkins for \$14,500 - another 2 yr old @ 230kg cutting 10.84kg antler. A proven dam and a great all round pedigree. Too early to estimate points. Just at velvetting stage at time of writing.

Comment: Current SCI World Record trophy sire, Prince Philip over proven dam 103. She was the dam of lot 1 at last year's stag sale—a 2yr old weighing 202kg, also lot 11 @ 201kg and lot 13 @ 207kg, also a 2yr old, by ET. Her sire Chancellor Peel has sired many industry greats including Odysseus (IOA 702), Salvador (IOA 605), Broadband (IOA 585), and Commander Peel (Nat 2yr HA Champ). A top performing pedigree and exciting genetics for this stag to pass to his progeny.

Comment: Huneric's progeny rank highly for DBVs in our herd. It is interesting to note that it was a Brusnik/ Adonis combination that produced Zidarn (IOA 653). Remember too that Huneric was National 2yr HA Champ. Dam sire Scipio shares his sire with Chancellor Peel. He is the sire of Morpheus who holds the industry record for 4yr IOA. At an estimated 37pts, this young stag is nothing short of spectacular. A very attractive heavy antler worthy of consideration. Arguably the best genetics in the world today

Comment: Current SCI World Record trophy sire Prince Philip at just 7yrs from the very heritable Mountbatten/Lewis mix that also produced Alan Stewart's Foveaux. Dam sire Samson is one of many top performing Chancellor Peel sons. He shares his sire with Odysseus (IOA 702), Salvador (IOA 605) and Broadband (IOA 585) to name a few. Impressive Warnham sires on the bottom line with the very heavy Clive (both antler and bodyweight) and the great Ramasses. This stag has a long heavy multi point antler, very symmetrical, with a big frame. 26 points.

Comment: Former SCI World Record #1 Charlie Mac was shot here at Foveran. His hugely heavy antler at 20.6kg makes for an impressive dual purpose sire for both velvet and trophy antler. The perfect match for Motdonis with his 22.45kg antler and 600 IOA. Also worth noting that dam 752 was the dam of lot 7 at last year's stag sale. A top performing pedigree. A heavy beamed antler with a classic style for the breed. Multi tops, 32 points.

Comment: Apollo is a full brother to Discombe (Nat 2yr HA Champ) and Holy Oak (Nat 3yr HA Champ). He was also the sire of lot 1 at last year's stag sale. A full brother to this stag by ET - a 2yr old @ 202kg sold to L McDonald for \$13,000. Dam sire Chancellor Peel is the sire of Odysseus (IOA 702), Salvador (IOA 605), Broadband (IOA 585) and Commander Peel (Nat 3yr HA Champ) to name a few. A proven pedigree. Long beam and tops with a big frame. 20 points.

Comment: Current SCI World Record #1 Prince Philip as the sire. Over the heavy Warnham Sire, Thomas Albert at 300 kg and 19.8kg HA. Down to former SCI #1 Charlie Mac and together with Clive, these sires on the dam side will surely add weight to the beam of this stag's progeny. Excellent potential for both trophy and velvet antler. A long even strong head. 22 points.

Comment: Ringo was shot as a trophy here at Foveran. His long and wide trophy antler was highly sought after by the trophy industry. It is interesting to note that Salvador was also from a Chancellor Peel/ Laszlo combination and confirms the heritability of this mix. Dam sire Hannibal also has the "wow" factor for trophy antler with a strong long correct antler. Remember too that Brusnik is the sire of Zidarn (IOA 653).

Comment: Henry VIII has an impressive Pure Warnham pedigree with Henry James as his sire. Henry James held the industry record for 2yr HH until it was beaten by one of his sons. These heavy beamed antler genetics are evident in Henry VIII's 18.6kg HA and at 619 IOA he is impressive. Over a full sister to Current SCI World Record #1 Prince Philip. An exciting English pedigree.

Comment: An impressive Schulte Wrede pedigree combining two great sires. Amadeus' huge frame and high scoring eye catching antler. He is the sire of our master sire Sebastian and also features highly with his progeny for DBVs. The perfect match for Image's stylish heavy beamed antler and with Wrede and Max on the bottom line to further promote bodyweight and antler so typical of the Schulte Wrede Germans.

Comment: Austin's heavy beamed velvet has received much recognition in the deer industry and has won the National Velvet Competition a number of times. At 14.7kg SA2, he is impressive and we expect this will add weight to the trophy antler genetics of the dam's pedigree. Remember that Mountbatten is the sire of current SCI #1, Prince Philip, and Henry James is the sire of Henry VIII (18.6kg HA IOA 619).

Commercial Sire & Trophy Sale

Wednesday 9 January 2012, 5pm

**We expect this sale to start at 5pm, after a break
for a meal and refreshments from the first sale.**

Lot numbers start at 67 to avoid confusion at the
time of delivery.

These stags have been selected on their own merit
for both antler and bodyweight, and not necessarily
for their pedigrees. They have the same genetic base
as the remainder of our herd and so we know they
will breed on well and introduce top bodyweight and
antler genetics into your herd.

Please also remember they are mostly older than
2 yr stags and so they CAN MATE LARGE NUMBERS
OF HINDS.

Many of these stags have excellent antler and could
also be considered for their trophy hunting value.

Good luck with your bidding and purchases!

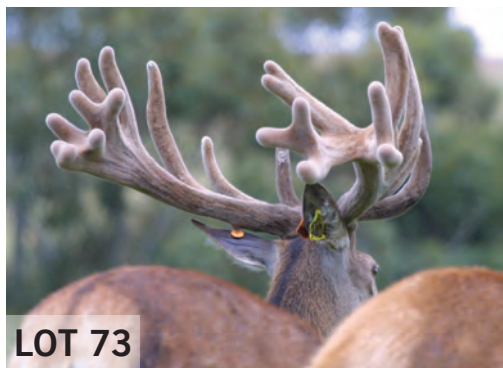

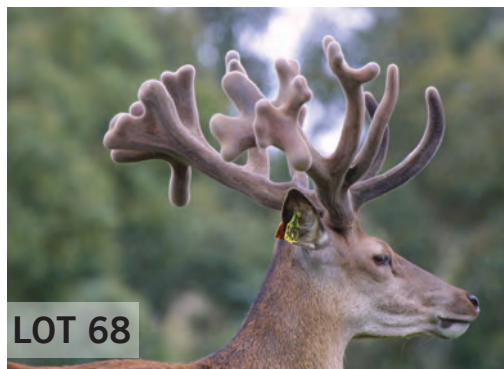

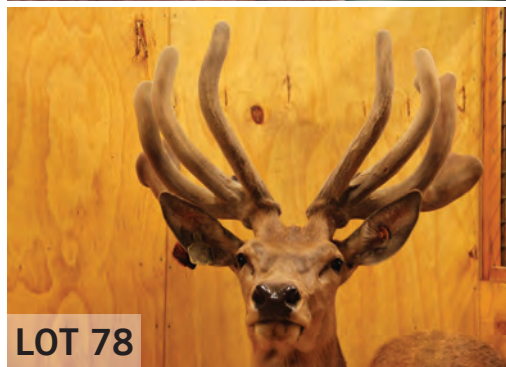

3 Year Old Commercial Sires

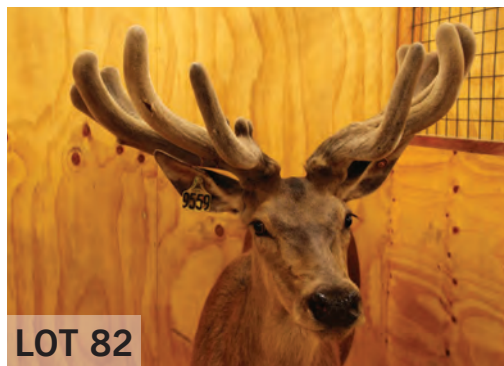

3 Year Olds

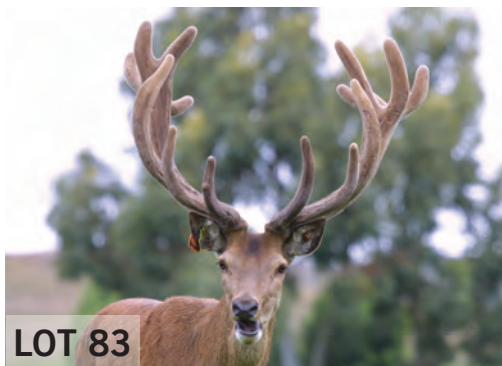

Note: Not all stags had developed their tops at the time of printing our catalogue. We expect these stags will be looking their best on sale day.

Comment: Lord Ferguson impressed us as a 3yr old with his long and wide trophy antler. He was one of a number of Avondale sons on offer that year proving the consistency and heritability of the line. Note Salvador is the dam sire of Lord Haka (201kg, 13.5kg antler IOA 502 @ 2yrs). Over Mountbatten, sire of current SCI World Record #1 Prince Philip. What a mix for this stag to pass to his progeny.

Comment: Robert the Bruce is the sire of Zoro, the 40pt spiker sold to Jeff Hansen for \$35,000 as lot 1 in the 2010 stag sale. His sire Mr Peel is a full brother to Chancellor Peel, sire of Odysseus (IOA 702), Salvador (IOA 605) and many other industry greats. Over Hampton who has sired many impressive stags - the main comment we get from feedback is how incredibly wide their antler style is. A great combination to produce top trophy antler. This stag has a multi point antler of 26 points.

Comment: Robert the Bruce is a proven sire. He was the sire of lot 1 at the 2010 stag sale, Zoro, a 40pt spiker sold to Jeff Hansen for \$35,000. Remember too that Archibald was the sire of lot 1 at our 2009 stag sale. A 201kg 2yr old cutting an impressive 12.53kg antler sold to John Hunter for \$20,000. A very heritable mix. This stag has 19 points.
