**Comment:** Faulty Towers at 558 IOA at just 4 years was impressive. The small offering of Faulty Towers sons in this catalogue confirm his heritability. Dam sire Odysseus is extremely heritable also. He is the sire of Mentor, McCaw, Houghton and many other industry sires. Kane on the bottom line is a full brother to Hector and the sire of one of our top trophy dams 6285. This stag has big fronts and a long beam. A very strong head. Expect multi tops but at time of writing it's too early to estimate points.
